

Hazardous, Restricted and Perishable Mail, Publication 52

Regulatory Update 2018

Goal – Perform a full review of Pub 52 to identify opportunities for clarification:

- Correct typos leading to incorrect Packaging Instructions
- Update definitions to align with OSHA and DOT
- Clarify marking requirements for air-eligible ethanol
- Clarify mailability for Live Bees outside of the continental US
- Comprehensive review of Appendix A
 - Add new items that have been created by UN and adopted by DOT
 - Provide clarification for class 9 items that are not permitted in air transportation

- Review mailing standards for non-hazardous and hazardous liquids to determine if changes should be made to packaging standards.
 - Standards for non-hazardous liquids:
 - DMM, 601.3.4
 - Pub 52, 451.3
 - Standards for hazardous liquids (Pub 52):
 - Flammable: 343
 - Oxidizers and Organic Peroxides: 345
 - Toxic: 346
 - Corrosive: 348
 - Miscellaneous: 349
