## 1.0 Introduction

On Sunday, April 30, 2023 the United States Postal Service implemented the following software change:

- *PostalOne!* System Release 57.1.2.0

These Release Notes provide the contents of the release and affected subsystems.

The section titled **Corrections to Known Issues** was derived from External Trouble Reports (ETRs) and Engineering Change Requests (ECRs) for inclusion in these releases.

This document is prepared based on the knowledge available at the time of its publication.

## 2.0 Mail.dat Client Support

Please note the following regarding the Mail.dat client download.

There is no new Mail.dat client with this release. Users should continue to use Mail.dat client 57.1.0.0\_PROD. The current Mail.dat client may be downloaded from the Business Customer Gateway (BCG) using the following path: Mailing Services → Electronic Data Exchange [Go to Service] → Mail.dat download (Windows 32-bit, Windows 64-bit or Solaris).

## 3.0 *PostalOne!* System – Corrections to Known Issues

### 3.1 Electronic Verification System (eVS) Premium Forwarding Service - Commercial (PFSC) Rate Lookup

eVS ensured that PFSC half trays are charged correctly. Previously, eVS was incorrectly applying the published Priority Mail full-tray rate of \$51.90 to all other published PFSC tray-priced pieces, regardless of whether they were Priority Mail or Priority Mail Express (PME), half tray or full tray. PME full trays and half trays were being undercharged, and Priority Mail half-trays were being overcharged. [ETR 15517](#)
