To unarchive a user uncheck the service you wish to see in manage users. Restoring any or all of the services will allow the user to appear on the manage users screen. If all services were removed from the user or if the user was removed from the main CRID then that use cannot be restored. Please note: A user who has a service restored will have to be approved for that service again by the BSA. This can be accomplished in Manage Users.

A checked box means
that user or service is
archived.
