

Areas Inspiring Mail Baltimore, MD

January 2018

Janine Egloff
Business Mailer Support Analyst-HQ

Nearly 40+ million people change their address each year

Keeping mailing address lists current mailers can...

- Continue to reach their customers after they move
- Significantly reduce the loss of **time**, **effort** and **money** due to undeliverable mail

Move Update Standard is used to help mailers:

- Reduce number of mailpieces that forwarded or returned
- Periodically match mailer's address records with COA orders maintained by USPS

Requirements

- First-Class Mail presorted or automation prices
- First-Class Package Service presorted parcel prices
- Parcel Select® Lightweight Prices
- All USPS Marketing Mail

Mailers who present mixed mailings that pertain to at least one of these categories are still subjected to the Move Update standard

Mailers must reconcile their mailing address list within 95 days prior to the postage statement finalization date with one of the Postal Service-approved methods or a surcharge is assessed

Move Update Approved Methods

To meet the Move Update standard, mailers must use at least one of the USPS approved methods

 <p>PRE MAILING: updating mailing address list before you mail</p>	<p>NCOA^{Link} National Change of Address Link</p>	<p>Verifies a mailer submitted mailing address list against the USPS NCOA database</p>
	<p>NCOA^{Link} MPE National Change of Address Link Mail Processing Equipment</p>	<p>Uses Mail Processing Equipment (MPE) technologies to match the printed address from a mailpiece against the NCOA Database</p>
 <p>POST MAILING: updating mailing address list after you mail</p>	<p>ACS* Address Change Service</p>	<p>Allows mailers to receive COA information and other reasons for non-delivery electronically</p> <p>*Free for Full-Service and basic automation/non-automation mailers meeting set requirements</p>
	<p>ASE Ancillary Service Endorsements</p>	<p>Allows mailers to receive COA information via hardcopy notice provided by USPS Mailer must print an endorsement on mailpieces</p>

NCOA^{Link}

- USPS approved **pre-mailing** address correction service that a mailer uses to process their mailing list through the USPS National Change Of Address (NCOA) database to determine if a change of address (COA) is on file
- If a match to a COA is found, it will update to the new address prior to mailing

Before NCOA^{Link}

A	B
Customer Name	Mailing Address
Laurita Hamilton	1640 Simpson RD Framingham, MA 12345

After NCOA^{Link}

A	B
Customer Name	Mailing Address
Laurita Hamilton	209 Washington St. Arlington, TX 12345

NCOA^{Link}

- Easy to ensure address files compared to COA database
- Addresses updated prior to mailing
- Not required to send mailpiece to newly identified address
 - Piece can be removed from presort mailing
 - Sent at single-piece prices to avoid Move Update error

Ensure NCOA^{LINK} software is set-up to check for COA within a minimum of the previous 18-months from the postage statement mailing date

Move Update Approved Methods

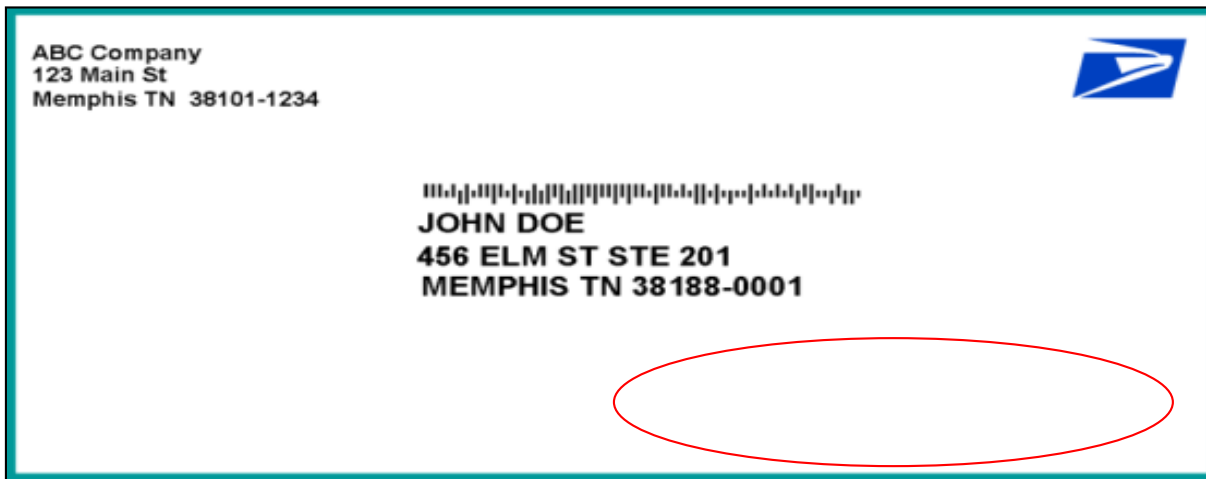

NCOA^{Link} MPE (MLOCR Users)

- Subset of NCOA^{Link} that uses Mail Processing Equipment (MPE) technologies to match the printed address from a mailpiece against the NCOA Database

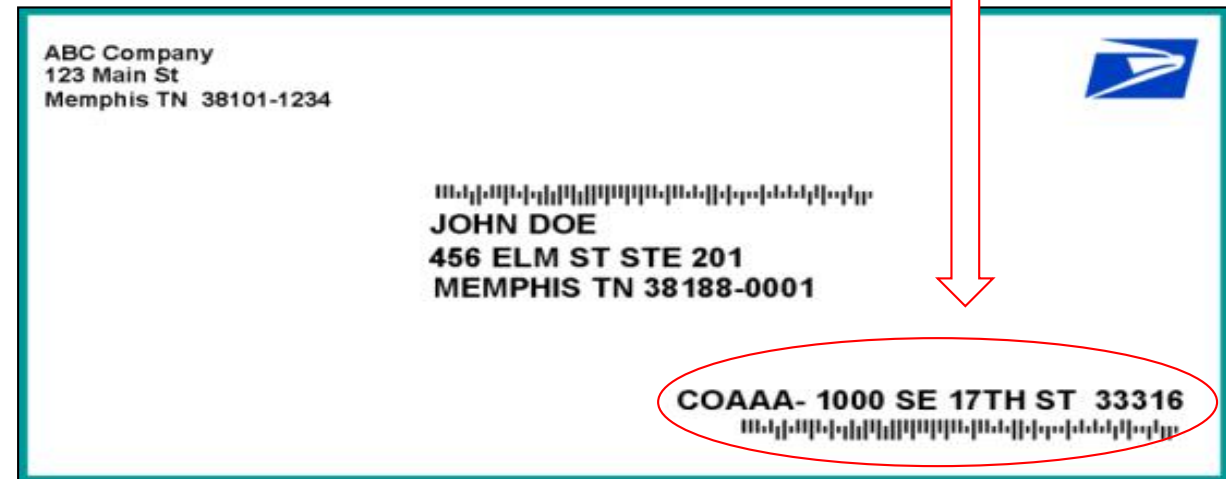

MPE Sprays new barcode onto the physical mailpiece

Before NCOA^{Link} MPE

After NCOA^{Link} MPE

Address Change Service (ACS)

- **Post-mailing** address correction service that allows mailers to receive COA information and other reasons for non-delivery electronically

Four service options:

- 1) Full-Service (Free for FS qualifying pieces)
- 2) OneCode
- 3) Intelligent Mail Package Barcode (IMpb)
- 4) Traditional

Effective January 21, 2018: No-fee Full-Service ACS will be extended to qualifying Basic automation and non-automation mailpieces for mailers who enter at least 95% of their mail as Full-Service in a calendar month.

Ancillary Service Endorsement (ASE)

- **Post-mailing** service that allows mailers to receive COA information via hardcopy notice provided by USPS
- Mailer must print an approved endorsement on a mailpiece

Mailpiece disposition depends on the following endorsement options:

- 1) Address Service Requested
- 2) Return Service Requested
- 3) Change Service Requested
 - For *First Class Mail*, this endorsement cannot be used as a stand-alone method to comply with Move Update
- 4) Temp-Return Service Requested
 - For *Standard Mail*, this endorsement is not available

Move Update 99% Accuracy and Legal Restraint

99% Accuracy

Legal Restraint

Available to mailers who can demonstrate they have a highly effective method of keeping their addresses current

**Note: Mailers must obtain an approval letter from the NCSC to be eligible for an alternative method

When a legal restriction prevents mailers from updating their customer's address without direct contact from the customer, they can be authorized to use the Legal Restraint Method

Two alternatives for meeting the USPS move update standard

Move Update Exceptions

Two exceptions to Move Update methods

EXCEPTION 1	Mailpieces that use an alternative address format, which have the recipient listed as:		
	<p>Simplified addresses “Postal Customer”, “Residential Customer”, “Business Customer”</p> <p>Example: Postal Customer 2711 ORDWAY ST NW APT 204 WASHINGTON DC 20008-5036</p>	<p>Occupant Addresses “Occupant”, “Householder”, “Resident”</p> <p>Example: Occupant 2711 ORDWAY ST NW APT 204 WASHINGTON DC 20008-5036</p>	<p>Exceptional Addresses “Jane Doe or Current Resident”, “Jane Doe or Current Occupant”</p> <p>Example: Jane Doe or Current Resident 2711 ORDWAY ST NW APT 204 WASHINGTON DC 20008-5036</p>

EXCEPTION 2	Mailers may directly acquire current addresses from their customers.	
	NOTE:	The addresses must be used within 95 days of direct acquisition from the customer to meet this requirement.

Move Update Validation: Current MERLIN Process

- Move Update validations are performed based on a sampling at the job level on Mail Evaluation Readability Lookup Instrument (MERLIN)
- Mailers are assessed additional postage on pieces not meeting the Move Update requirements above threshold

ASSESSMENT PROCESS

Step 1: Mailpieces are randomly sampled.

Step 2: Sampled mailpieces go through Merlin Machine.

Step 3: Merlin assess address list quality with the sampled mailpieces against COA records.

Step 4: Merlin generates report based on assessment.

Move Update Validation: New Census Process

- Census based verification replaces MERLIN
- Data collected as mail is processed through MPE
- Applies to ANY eDoc Submitter with Full-Service volume the month after first mailing Full-Service
- Free ACS for basic automation/non-automation (95% FS volume)
- Compliance measured across a calendar month
- Results displayed on the Electronic Verification tab of the Mailer Scorecard

Assessments begin
March 11th, 2018
using February
2018 data

**MAILER
SCORECARD AND
ASSESSMENTS**

Navigate Mailer Scorecard

1. Select eDoc Submitter view if:

- Mailer mails only their own material

2. Select Mail Owner or Mail Prepare if:

- Mail Service Provider (MSP) mails for multiple Mail Owners

3. Select Mail Owner or Mail Preparer Scorecard Details if:

- MSP has a large number of Mail Owners (MO)
- If want to see the percent and count of errors in the same view

Mailer Scorecard

1 **I'm an eDoc submitter**

This report shows a breakdown of metrics by eDoc submitter CRID across several USPS programs, including Full-Service, Seamless Acceptance, and eInduction.

2 **I'm a Mail Owner or Mail Preparer**

This report shows a breakdown of metrics by mail owner and mail preparer across several USPS programs, including Full-Service, Seamless Acceptance, and eInduction.

3 **Mail Owner or Mail Preparer Scorecard Details Report (Export)**

Use this option if you are a Mail Preparer who prepares mail for more than 60 Mail Owners or if you are a Mail Owner who uses more than 60 Mail Preparers

Benefits of Mailer Scorecard

- Mailer Scorecard provides summary of mail preparation and eDoc quality
- Drill down features allow a mailer to view detailed error and warning information
- Mailer Scorecard is accessible through the Business Customer Gateway for customers
- Allows mailers to preemptively and proactively adjust quality on mailings before being assessed
