March 2, 2018

Enterprise Payment System (EPS) Webinar

Every Tuesday effective 3/6/2018 until 8/28/2018 from 1:00 PM to 2:00 PM (EST)

Mail Entry and Payment Technology will be hosting open line calls to provide education on the new Enterprise Payment System (EPS) and answer any questions regarding the migration and enrollment process.

The EPS system supports commercial, domestic, and international products and services which includes First-Class Mail®, USPS Marketing Mail™, Periodicals, Electronic PO Boxes Online (ePOBOL) and Address Quality Products.

Key features include online account creation and management, payment for products and services through one account and enhanced reporting features. Customers utilizing EPS can fund their accounts through Automated Clearing House (ACH) Debit, allowing USPS to directly withdraw a payment transaction from their bank account, or through a Trust Account, funded through ACH Credit, FedWire Transfer, or check, cash, or money order deposited at any retail location. A new check capture feature is planned which allows customers to deposit checks using a mobile application, eliminating the need to visit a Post Office.

If you are utilizing any of the following products and services, contact your Business Mail Entry Unit or Business Mailer Support Analyst to enroll today!
