--------------	-------------	--------------	--------------

1.0 Introduction

On Sunday, April 22, 2018, the United States Postal Service implemented the following software changes:

- *PostalOne!* System Release 47.1.1.0
- Enterprise Payment System (EPS) Release 3.2.2.0

These Release Notes provide the contents of the releases and affected subsystems.

The sections titled **Corrections to Known Issues** are derived from External Trouble Reports (ETRs) and Engineering Change Requests (ECRs) for inclusion in these releases.

This document is prepared based on the knowledge available at the time of its publication and any element may be subject to change prior to publication.

2.0 Mail.dat Client Support

Please note the following regarding the Mail.dat client download.

Users can continue to use Mail.dat client version 47.1.0.0_PROD, or may optionally download an updated Mail.dat client version 47.1.1.0_PROD. The updated client version 47.1.1.0_PROD resolves a display issue on the Mail.dat receipt for Informed Delivery campaigns (ETR 12284). The updated client may be downloaded from the Business Customer Gateway (BCG) using the following path: Mailing Services → Electronic Data Exchange [Go to Service] → Mail.dat download (Windows 32-bit, Windows 64-bit or Solaris).

3.0 *PostalOne!* System - Corrections to Known Issues

3.1 Electronic Data Exchange

Previously, the Mail.dat receipt process to retrieve Informed Delivery errors utilized the wrong date of submission when querying for error information. This prevented Mail.dat receipts from displaying the Informed Delivery errors unless processing completed within a small timeframe just after midnight. The Mail.dat receipt process has been updated to use the prior day's date for retrieving the Informed Delivery errors. The optional updated Mail.dat client version 47.1.1.0_PROD was provided to resolve this issue. The update enables Informed Delivery campaign information to be displayed on Mail.dat receipts. [12284 \(19455-R\)](#)

3.2 Electronic Verification System (eVS®)

Performance improvements for the eVS Unused Label Refund process have been implemented to address a backlog of pending unused label refund requests. Previously, slow performance over the past several weeks may have resulted in delayed unused label evaluation and refunds for some mailers. [12320](#)

3.3 Postage Statement Processing

An issue has been corrected that prevented the full finalization of Mixed Class Co-Mail under certain conditions. Previously, when all of the Periodicals were authorized for Centralized Postage Payment (CPP), and there were no non-CPP Periodicals in the Mixed Class Co-Mail mailing, finalization of the USPS Marketing Mail portion did not initiate after the Periodicals statements were updated to "Finalized Pending Payment" (FPP) status. The USPS Marketing Mail statements remained in "USPS Processing Due" (UPD) status and postage could not be collected. [12265 \(19438-R\)](#)

4.0 Enterprise Payment System (EPS) – Corrections to Known Issues

4.1 Notifications

The Enterprise Payment System (EPS) reflects a new eMail address for sending notifications. EPS notifications now bear the sender's address "EPSAdmin@usps.gov." [976-E \(1024-R\)](#)

5.0 Document History

Date	Version	Section	Description
4/26/2018	Chg. 5.0	3.3	<ul style="list-style-type: none">• Corrected CPP definition
4/23/2018	Chg. 4.0	All	<ul style="list-style-type: none">• Updated for post-deployment version
4/19/2018	Chg. 3.0	3.3 4.1	<ul style="list-style-type: none">• Added ETR 12265 (<i>Section 3.3</i>)• Updated wording on ETR 976 (<i>Section 4.1</i>)
4/18/2018	Chg. 2.0	1.0 4.1 3.2	<ul style="list-style-type: none">• Updated Introduction to add EPS Release 3.2.2.0 (<i>Section 1.0</i>)• Added ETR 976 (<i>Section 4.1</i>)• Added ETR 12320 (<i>Section 3.2</i>)
