United States Postal Service
INDUSTRYALERT

June 21, 2018

Scheduled Maintenance Notice

The USPS will perform critical maintenance on its information technology infrastructure between Sunday June 24, 2018 9:00 pm EDT and Monday June 25 1:30 am EDT.

During this time, there will be no access to USPS applications to include: Automated Package Verification (APV), Business Customer Gateway (BCG), Centralized Account Processing System (CAPS), Facility Access and System Tracking (FAST), Enterprise Payment Systems (EPS), Informed Delivery, Informed Visibility, Mailer Scorecard, National Meter Accounting and Tracking System (NMATS), *PostalOne!*, Product Tracking and Reporting (PTR) and USPS.com.

Additional communications will be distributed in the event that we need to extend the outage beyond June 25, 1:30 am EDT. We apologize for this inconvenience and are committed to minimizing impact to our customers.
