EPS Informational Series
Updated Webinar Information

Enterprise Payment System (EPS) is now live for Postal customers. EPS Supports commercial, domestic and international products and services including First-Class Mail®, USPS Marketing Mail™, Periodicals postage statements submitted via mail.dat, mail.xml, Postal Wizard, IMsb, or Hardcopy.

CAPS Customers
CAPS customers pay for mailings and shipments using a centralized account through either a prefunded option or an ACH debit option, which allows the USPS to withdraw payment directly from their bank account.

Effective October 1, 2018: All new eligible accounts must be established through EPS.
To sign-up for EPS:
- Local Business Mail Entry Unit (BMEU): BMEU Locator
- *PostalOne!* Helpdesk
    - Call: 1-800-522-9085
    - Email: Postalone@usps.gov

Effective April 1, 2019: All eligible CAPS accounts must migrate to EPS -- customers are encouraged to migrate sooner. *Note: Package products paid through eVS are not affected by these dates. Customers may continue to use/open CAPS accounts for these products until further notice.*

Local Trust Permit Customers
Local Trust permit customers prefund their account by depositing a check, cash or money order at the location where the permit was opened. These customers are not mandated to migrate; however, the USPS encourages customers to take advantage of the benefits of the new system, which includes mobile check deposit, online account management, enhanced reporting, and streamlined accounting processes

Webinar Information
Business Mailer Support is hosting a series of **EXTERNAL** informational sessions. You are encouraged to attend a session to familiarize yourself with EPS and the migration process. **Due to previous issues with Webex this is an updated link:**

- **What:** EXTERNAL EPS Informational Series
