

# Appendix A: Service Type Identifier (STID) Details

The descriptions that follow show the Service Type Identifiers (STIDs) that apply to the basic automation and Full-Service options for Intelligent Mail. You may also wish to refer to the Intelligent Mail Barcode Technical Resource Guide, which can be found at: <http://ribbs.usps.gov/>.

Appendix A provides a detailed description of the various address correction options available within basic / Nonautomation and full-service mailings and the STIDs that provide the different undeliverable-as-addressed (UAA) treatments. Mailers who wish to receive address correction information on nonautomation mailpieces should use the corresponding STID for Basic / Nonautomation option mailpieces unless otherwise defined in Appendix A.

Appendix A is divided into:

- Mail Class (First-Class, Periodicals, Standard Mail, and Bound Printed Matter)

Each mail class has its page or set of pages and is indicated in the Header and Footer of each page. Within each class of mail, it is divided into:

- No address correction or ancillary services desired for handling of UAA mailpieces
- Manual address corrections or for other ancillary services not available in ACS
- OneCode ACS
- Full Service ACS
- Traditional ACS

To use Appendix A, follow the below steps:

- Step 1 Determine the Class of Mail and select the page(s) for that mail class (indicated at the top and bottom of the page) to access the STID assignments for that mail class.
- Step 2 Determine the Mailing Type - Basic / Non-Automation or Full-Service for that mail class.
- Step 3 Determine if you want to receive IMb Tracing scan data.
- Step 4 Determine whether or not you want to receive ACS.
- Step 5 Determine what type of ACS record you want; OneCode ACS, Full Service-ACS, or Traditional ACS.
- Step 6 Select the Mailpiece Disposition desired for any UAA mail. Note that Mailpiece Dispositions are often similar with minor differences. Select the Mailpiece Disposition that best meets your needs.
- Step 7 Determine whether the associated Mailpiece Disposition requires the printed Ancillary Service Endorsement (ASE). If not, skip to Step 8.
- Step 8 Determine whether to use a "Recommended Ancillary Service Endorsement (ASE)" or an "Allowable ASE" on your mailpiece by checking the column "Action taken if barcode unreadable".
- Step 9 Understand the postage and/or fees, if any, that will be associated with the use of the STID and/or the ancillary service requested.
- Step 10 Check the Constraints and the Notes columns for applicable information.
- Step 11 When you are certain that you have correctly identified all options and understand the Constraints and Notes, use the STID specific to that line item when you create the IMb.

Point of information – within each class the text color denotes the address correction notice type.

- Black = No address correction
- Red = Manual address correction
- Purple = Traditional ACS
- Blue = OneCode ACS
- Green = Full Service ACS

New or changed STIDs are shown in ***Bold Italic*** and the descriptions for them are shown in an *Italic* font.

**IMPORTANT NOTE:** If any discrepancy exists between this document (Appendix A: Service Type Identifier Details) and the *DMM® Mailing Standards of the United States Postal Service*, the *DMM* always takes precedence. For the most current *DMM*, go to the Postal Explorer Web site, (<http://pe.usps.gov>) and click on *Domestic Mail Manual*. Any procedure in this publication can be amended or rescinded by notices in the *Postal Bulletin*, *Federal Register*, or the *DMM*.

## Change History

Section	Date	Description of Change
First-Class Mail	7/23/2013	Added: Return Service Requested, Option 2
First-Class Mail	7/23/2013	Added: Temp-Return Service Requested, Option 2
Standard Mail	7/23/2013	Added: Address Service Requested, Option 2
Standard Mail	7/23/2013	Added: Return Service Requested, Option 2
Bound Printed Matter	7/23/2013	Added: Address Service Requested, Option 2
Bound Printed Matter	7/23/2013	Added: Return Service Requested, Option 2
First-Class Mail	1/26/2014	Added: Address Service Requested, Option 1
First-Class Mail	1/26/2014	Added: Change Service Requested, Option 1
Bound Printed Matter	1/26/2014	Added: Change Service Requested with SPF for Traditional ACS SPF
First-Class Mail	4/2/2015	Added: Secure Destruction (STIDs provided at enrollment)
Standard Mail	4/2/2015	Added: Change Service Requested, Option 2 for Standard Mail
Bound Printed Matter	4/2/2015	Added: Change Service Requested, Option 2 for Bound Printed Matter
Bound Printed Matter	5/22/2016	Added: IMb Tracing STIDs with and without ACS.
First-Class Mail	5/22/2016	Changed: Secure Destruction details
<b>Periodical</b>	<b>2/23/2019</b>	<b>Added: Periodicals with Alternative Address</b>

## Search Words

Care has been taken to use consistent wording throughout this document whenever possible. Search Words may be used to help you find the Service Type ID that you need. The following is not a complete list, but may help get you started with your investigation.

Search by Mail Class and/or IMb Service Option. For example:

- Full Service
- First-Class Mail
- Basic Nonautomation
- Periodical
- Standard Mail
- Bound Printed Matter
- Full-Service ACS
- OneCode ACS
- Traditional ACS
- Manual
- Destination *(for IMb Tracing)*

Search by your desired UAA mail disposition. For example :

- Forward if possible
- Mail discarded
- Return to sender
- ACS notice provided
- Manual address correction
- No address correction

Search by Ancillary Service Endorsement (if known):

- Address Service Requested
- Change Service Requested
- Return Service Requested
- Temp-Return Service Requested
- Electronic Service Requested
- Forwarding Service Requested

**First-Class Mail**
