

LICENSING ANNOUNCEMENT

NOVEMBER 2, 2011

DSF²® Throwback Table Expansion

Primary Audience: DSF² Licensees

What: In an effort to provide value added enhancements to the traditional P.O. Box™ service, 3,700 postal locations are adding 'P.O. Box Street Addresses' (PBSA) to the AMS database. In the past two weeks, more than 700,000 new records have been added to the AMS database with the potential of nine million new records by the end of the year. These records will all be added to a C77X route as no stats and P.O. Box throwbacks.

Beginning with the December monthly data fulfillment, the file size of the dph.hst table will increase from 4 MB to 67 MB.

When: Beginning with the December monthly data fulfillment

Impact: There will be an increase in the file size of the dph.hst table beginning with the December data fulfillment.

What you need to do: Please share this information with all pertinent contacts at your company.

If you have any questions regarding this notice, please contact the Licensing Department at 800-589-5766.
