MTAC Packages

June 2019

Packages

- * Enhanced Package Processing System Update

Industry Communication

- * IMpb Visibility (Keyed vs. Scanned Barcodes)
- * Parcel Return Service (PRS) w/Multiple ZIP Codes

*IMpb Manifest Quality Timeliness

Priority Mail Open and Distribution (PMOD)

- * IMpb Quality MQ Validations

* Soft Pack

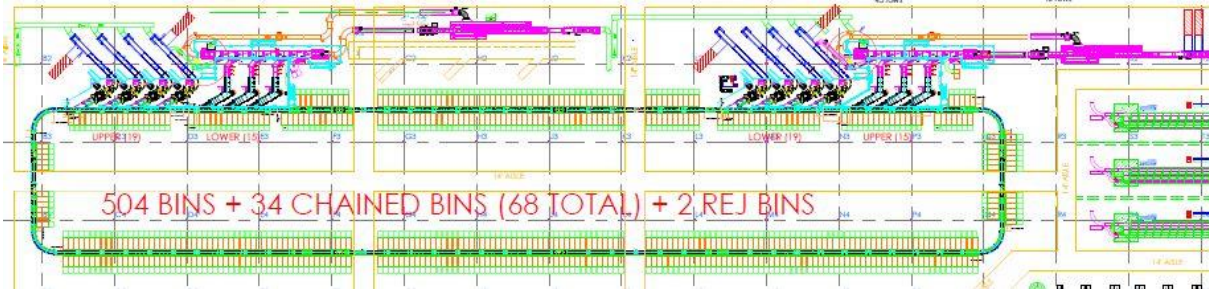

*ZIP Code Association

*IMpb Compliance Performance and Timelines

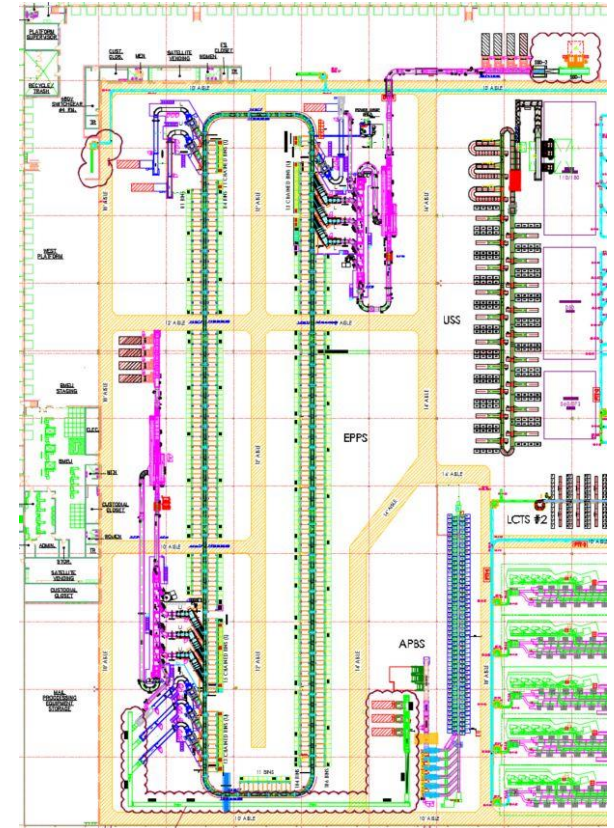

USPS EPPS Standard Layout

Nashville EPPS Layout

Portland EPPS Layout

Project Description:

- The EPPS is Similar to APPS with some different components: Sorter, Cameras, Auto Scales, FSD components
- 25,000 packages per hour (PPH) to 400+ outputs, discharging into pallet boxes, wire containers and sacks
- Product Mix: Same as APPS

Portland Status

- 413 Destinations, Two Auto Induction Systems, 6 Supplemental Inductions, 25,000 PPH
- Began processing mail in September 2018
- First Article Test concluded on May 3, 2019
- Test results currently under assessment.

Nashville Status

- 538 Destinations, Two Auto Induction Systems, 8 Supplemental Inductions, 28,000 PPH
- Installation Ongoing:
 - Inductions mechanically installed, wiring and integration ongoing.
 - Sorter installation and wiring ongoing, ahead of schedule
- Start of mail processing scheduled October 2019
- Acceptance test scheduled for November 2019

*PROPOSED

United States Postal Service

INDUSTRY ALERT

Scan Event Updates— February 19, 2019

On Sunday, February 24, 2019, the United States Postal Service will implement the following scan event extract file language and code changes

- Second Level Scripting New Language for Scan Event Code 70 and 71

This expedited release will further improve timely information on scan event extract file changes. New EDI Mapping and acceptance of the new scan event 70 will ensure timely receipt of the tracking events

Detailed Trackology Bulletin is posted to PostalPro: <https://postalpro.usps.com/XXXXXX>

Please direct any inquiries or concerns to the *IMpb* via eMail (IIMPB@usps.gov)

Scan Event Code (May 2019): <https://postalpro.usps.com/product-tracking-and-reporting/scan-events-descriptions>

Publication 199 (June 23): <https://postalpro.usps.com/node/782>

Industry Alert-30-Day Advance Notice for Scan Event Changes

USPS.COM
USPS Tracking
USPS Tracking Visibility Newsletter

Welcome to the first issue of the new USPS Tracking Visibility Newsletter. Our goal is to help you with package tracking events by providing a new communication tool for our scan event language. The role of the bulletin is to provide timely information to the mailing industry focusing on the following key areas to improve the USPS tracking experience: Scan Event Language & Presentation, Alerts and Notifications. These bulletins are not intended to replace or supersede the requirements of the USPS.

Scan Event Language & Presentation

1 New Scan Event Language - The language on 2 tracking events currently display the same second level scripting that could potentially cause confusion to customers and generate an influx of calls to your Help and Support Center.

Second Level Scripting Current Language	Scan Event Code	Second Level Scripting New Language
Rescheduled to Next Delivery Day	70	Rescheduled to Next Delivery Day: Address Verification
Rescheduled to Next Delivery Day	71	Rescheduled to Next Delivery Day: Operational Issues

2 New Scan Event 70 - The USPS carrier has identified an issue with the delivery address. The mailpiece will be returned to the Post Office for address verification. Redelivery is scheduled to next delivery day pending verification.

3 First Level Scripting Language for Rescheduled to Next Delivery Day - The language for a rescheduled has been updated to be more informative and less adverse to the customer perception.

(70) Address Verification- Your item was returned to the Post Office for address verification on DATE in CITY, STATE and ZIP CODE because of an inaccurate address. Your item will go out for delivery on next business day if the address can be verified.

(71) Operational Issues- We apologize we are unable to attempt delivery of your item on DATE in CITY, STATE ZIP CODE due to an unforeseen operational issue. Your item will go out for delivery on the next delivery day.

4 The 5 Ws for Scan Event 70

When ▶ Pilot implementation February 11, 2019
National Deployment February 24, 2019

Why ▶ USPS goals are centered around the need to meet customer expectations. Customer needs include delivering parcels as safely as possible, as well as delivering them exactly when expected and in the same condition as the items were when tendered to the Postal Service. Our #1 goal is delivery of the parcel and the prevention of it being return to sender.

Where ▶ Shippers will begin to see Scan Event 70 in Customer Daily Extract (CDX) files. Mailing Industry needs to add the Scan Event 70 to all EDI Mapping.

What ▶ Stop-the-Clock?
Scan Event 70 will be a Stop-the-Clock Event (YES)
Scan Event 71 will not be a Stop-the-Clock Event (NO)

Who ▶ Customers will not see a language change on USPS.COM

5

[Upcoming-
Retiring STC and New STC -effective date TBD

July 01, 2019

The barcode input method in the Customer Scan Extract File (CDE) informs mailers how the tracking number was input. This information can be found in the **Barcode Input Method** field

Today, PRS scan event information provided in the Scan Extract File provides only the City, State and ZIP Code, only to identify multiple facility locations.

August 2019 Enhancement

- The MDD device will collect the locale key when 03 (Accept or Pickup) scan events are made on packages, including PRS mailpieces.
- Additional changes are required to include in extract files.
- Adhoc reports could be provided leveraging this feature once deployed.

Effective August 2019

Current 03 scan events capture City, State and ZIP Code

Locale Key	Facility Name	Address				
X1C516	30TH STREET	2955 MARKET ST LBBY A	PHILADELPHIA	PA	19104	191049775
X1B633	UNIVERSITY CITY	3000 CHESTNUT ST	PHILADELPHIA	PA	19104	191049998

Future Enhancement – Release TBD

PTR will populate the Locale Key into the Facility Identifier field within the Scan Extract File to provide greater visibility into the exact pick-up location in a future release.

Locale Key	Facility Name	Address				
X1C516	30TH STREET	2955 MARKET ST LBBY A	PHILADELPHIA	PA	19104	191049775
X1B633	UNIVERSITY CITY	3000 CHESTNUT ST	PHILADELPHIA	PA	19104	191049998

IMpb Timeliness(DDU vs. DSCF scans)

For the Month of May 2019

2.97%

DSCF Timeliness

* MAIL PIECE WAS
UNMANIFESTED AT THE TIME OF
AAU
Or
Piece never received a
Manifest

0.76%

DDU Timeliness

* MAIL PIECE WAS
UNMANIFESTED AT THE TIME OF
AAU
Or
Piece never received a
Manifest

- Measurement of parcels where rate indicator has been set to DSCF or DDU in the Shipping Services File (SSF)
- IMpb Compliance is measured for assessment at the time of the first Arrival at Unit (07) scan for eVS mailers. For non-eVS mailers, compliance is assessed at the time of mailing.

Scan Rate of DU Direct Pallets of Full Service Bundles

DU Direct Pallets – Internal Reporting started in Fall 2018

Efforts to Improve Scanning Process and Compliance

- Updated and Certified SOPS, Standard Work, Service Talks
- Conducting coaching sessions with Top Opportunity Districts
- Identifying and addressing any other logical issues in reporting relative to container level, location dropped and destination (example: BMEU entered-DU Direct pallets)

Leverage Shipping Partner File and Shipping Label Created (GX) event to share delivery estimates shared with customers at order

- Improve Customer Experience by providing Expected Delivery earlier in the package lifecycle.
- Integrate and leverage advanced analytics and customer estimated delivery and promised dates
 - Shared via the Shipping Services File and Shipping Partner Event File
 - Reveal via internet and notifications for customers with high accuracy
- Reassure customer when to expect delivery
- Customer provided date will persistently display instead of Expected Delivery Date calculated by the Service Delivery Calculator
- Consistent experience from purchase to delivery
- Reduce Contacts

**Provide Expected
Delivery Date given to
Customer at the time
of order*

Record Position	Field Name	Format (Size)	Description	Example	Content Rules and Limitations	EDI 240
171 – 172	Action Code	A(2)	Applicable valid action codes. 'V1' – Cancelled Label - Only applicable for GX Event 'V2' - Package Delivered by Shipping	PP	<ul style="list-style-type: none"> Must be a valid code. 	IF L1102 not = "ZZ" Then L1102

190 – 194	Entry Facility ZIP Code	N(5)	5-digit ZIP Code of postal facility where the mail is tendered.	22201	<ul style="list-style-type: none"> Numeric only (0-9) 	IF L1102 = "ZZ" Then L1101
195-196	Customer Delivery Preference	A(2)	For future use		<ul style="list-style-type: none"> Default is spaces 	CD301

**Provide
Expected
Delivery Date
given to
Customer at the
time of order*

Record Position	Field Name	Format (Size)	Description	Example	Content Rules and Limitations
223-224	Action Code	A(2)	Applicable valid action codes. "V1" – Cancelled Label - Only applicable for GX Event "V2" - Package Delivered by Shipping Partner – Only applicable for GX Event	PP	Must be a valid code (spaces are not a valid code). If Pick Up and Return address is same then use code for shipment type "PC Postage", "Mail Owner", "Service Provider". Must populate Pick Up address. If Pick Up and Return address is different then all fields in both Pick Up and Return address must be populated.
225-232	Mailing/Tendered Date	N(8)	Date Partner or customer expects to tender the package to USPS	20140508	Format is CCYYMMDD Null value is valid.
233-240	Merchant Projected Delivery Date	N(8)	Date merchant communicated to customer to expect the delivery	20140508	Format is CCYYMMDD Null value is valid
241-241	Entry Facility Type	A(1)	Type of USPS facility where mail is tendered. 'A' – ADC 'B' – NDC 'S' – SCF 'D' – DDU 'F' – ASF 'I' – ISC 'O' – Origin Post Office	A	For origin or destination entry facilities. Required for Drop Ship Mailers. Required for Parcel Return Service mailers to note pick-up facility type. Default is spaces.
242-246	Entry Facility ZIP Code	N(5)	5-digit ZIP Code of postal facility where the mail is tendered.	22201	Numeric only (0-9)

Manifest Validation – For DDU parcels

ENTRY FACILITY MISMATCH - ENTRY FACILITY DOES NOT MATCH MANIFEST FILE

1

PTR - Checks the **DEST_RATE_CODE** (the Destination Rate Indicator from the D1) on the MA is equal to “D” (Destination Delivery Unit)

Destination Rate Indicator:

- SSF Version 1.6/1.7 (D1 Position 375 – 376)
- SSF Version 2.0 (D1 Position 38)

2

If **DEST_RATE_CODE** = “D”, then validate using existing logic (compare first 3 digits of **Event Zip** on 1st AAU (07 Event) to the first 3 digits of **ENTRY_FAC_ZIP** on the MA).

Entry Facility ZIP Code:

- SSF Version 1.6/1.7 (H1 Position 52 – 57)
- SSF Version 2.0 (H1 Position 7)

3

If they match, PTR will **NOT** generate the MQ indicator

Compliant

If they do not match, PTR will generate the MQ indicator

MQ

1

PTR add logic to MQ Reason Code 1 Validations to account for Entry Facilities ZIP Codes that service more than one Destination ZIP Code where the first 3 digits are not the same for DDU shipments that are currently generating a MQ Reason Code 1.

2

PTR Shipping Services File with a Entry Facility ZIP Code found in USPS Label List L606-5 Digit Scheme reference table (only validating first 3 digits)
PTR will not log a MQ IMpb Report Code with a Reason Code 1 when the Event ZIP of the first AAU maps to an approved Destination ZIP Code found in L606 (only validating first 3 digits)

3

PTR will **NOT** generate the MQ indicator

 Compliant EXAMPLE

Current Logic:

When PTR receives an Entry Facility ZIP Code of 10199 on the SSF, and the AAU Event ZIP code of 10009 then PTR generates a MQ IMpb Report Code with a MQ Reason Code 1

Future Logic:

When PTR receives an Entry Facility ZIP Code of 10199 on the SSF, and the AAU Event ZIP code of 10009 then PTR will not generate MQ IMpb Report Code

Manifest Validation

ENTRY FACILITY SERVICING MULTIPLE DESTINATION ZIP CODES

There is an overlap of 87 3-Digit ZIP Codes that services multiple destination ZIP Codes. We have requirements to incorporate the ZIP Codes listed below.

Manifest ZIP Code

Actual ZIP Code of 1st
AAU scan

Submit Request to: IMpb@usps.gov

Subject Line: Mismatch Facility AdHoc Report Request

- USPS discussing internally with stakeholders
- Seeking Industry feedback on soft pack indicator
 - What objectives are accomplished by identifying this type
 - What types of problems could the indicator help solve?
 - Benefits?
 - Mandatory indicator?

Share your comments and input at : IMpb@
Subject Line: Include Soft Pack Comments

Potential concerns between the variation of the Destination ZIP Code provided in the SSF vs. actual Delivery Scan ZIP Code populated from the handheld scanners and displayed on consumer facing channels. Particular concern for package forwarders.

Example: 9361212345695654408900

Destination ZIP Code (SSF) = **33195**

Actual Delivery Scan ZIP Code = **33166**

Destination Address Information

Address: 7801 NW 37TH ST DORAL FL

City: DORAL

State: FL

5-Digit ZIP Code: 33195

4-Digit ZIP Code add on: 6503

Current Display: ZIP Code associated with the delivery scan

Tracking Number: 9361212345695654408900

Expected Delivery ... MONDAY 8 APRIL 2018 by 8:00pm

Tracking History

Product Information

- A reference data table to indicate ZIP Codes that are essentially “equivalent” in terms of the operational processes at postal facilities.
- For example:
 - If PTR receives a delivery event with ZIP Code 33166, check the mapping table to see if other “equivalent” ZIP Codes exist.
 - If they do, we check the shipper provided destination ZIP Code. In this example 33195
 - If there is a match in terms of “equivalent” ZIP Code, then PTR will store the expected customer ZIP Code as the delivery event ZIP Code, and display the information on all consumer facing channels.

Future Display: ZIP Code associated to address in SSF*

Reference data table will be updated to incorporate locations and ZIP Codes with this use case.

Address Quality

Δ to New
Target (90%):
↑ +3.88

Δ from Last
Month:
↑ +0.07

Measures percent of addresses* with enough information to validate to the unique exact 11-digit DPV ZIP Code when matched against the AMS Database.

Benefits:

- Operational efficiency
- Enables personalized features such as My USPS
- Avoids operational costs (Manual scheme lookup/PRES Keying)
- Improves deliverability

Shipping Services File Quality

Δ to New
Target (94%):
↑ +1.75

Δ from Last
Month:
↑ +0.53

Measures percent of manifest records that pass key package level detail validations mitigating potential errors when processed in the PTR Database.

Benefits:

- Supports timely postage payment and revenue assurance
- Enhances tracking and customer experience
- Provides digital awareness of packages that will be delivered by USPS
- Facilitates better workload planning
- Eliminates need for manual counts
- Enables better analytics, insights, decisions

Barcode Quality

Δ to New
Target (98%):
↑ +1.42

Δ from Last
Month:
↓ -.06

Measures percent of tracking numbers that pass key validations for format and uniqueness* without errors or warnings when manifests are processed in the PTR Database and physically scanned.

Benefits:

- Critical for visibility and the customer experience
- Creates the digital trail
- Supports payment and revenue assurance
- Facilitates operational efficiencies
- Foundational for current and future product offerings

CASS / MASS Cycle 'O' Highlights

Outstanding Questions

New Timeline:

- Cycle N has been extended to July 31, 2021
- Partnership In Tomorrow meeting will be scheduled & timeline updated once updated requirements are finalized

Resolving 11-Digit Conflicts

- Engineering test using TotalDPS algorithm showed positive results
- Efforts underway to evaluate cost of updating mail processing
- Final requirements for TotalDPS implementation undergoing internal stakeholder review

Outstanding Questions

NCOALink® CRID/MID Requirement:

- CRID is required to align mail owner identification across all Postal systems.
- MID is required for NCOALink MPE Users

WG 186 – Business Approach to Address Characteristics Indicators

- Impact requirements/implementation concerns pending WG Leadership meeting
 - MTAC Workgroup 186 does not impact CASS Cycle O requirements

NCOALink 100 Record Rule Change Request

- Awaiting industry proposal on how security of process would be maintained

SuiteLink® – Extraneous Output Options

- Clarification of existing requirements. CASS software can return extraneous information in several optional formats based on the input address

Additional CASS Cycle O Q&A is posted at:

https://postalpro.usps.com/mnt/glusterfs/2018-08/CASSCycleO2018_QA.pdf

Change-of-Address Updates

Increase COA Entries

Email/Hardcopy Touchpoints

✓ New Delivery Addresses

- *80K letters mailed*
- *10% response*
- *USPS will continue assessing value*

✓ Moved, Left No Address

- *115 emails delivered daily*
- *Response rate to be analyzed*

➤ AMS Vacancy Change

Have you moved? Make it official with the USPS®

Make sure your mail moves with you! Update your information online with the USPS®, in minutes.

- The only official way to update your address online
- Safe, simple and secure
- Receive email confirmation immediately
- Sign up for Informed Delivery® notifications to digitally preview and manage your mail
- Get instant access to over \$750 in coupons & savings

Change your address online now at [USPS.com/move](https://usps.com/move)

Or, scan the code for instant access to [USPS.com/move](https://usps.com/move), and we'll automatically fill in your new address on your online form.

Benefits of New Digital Format

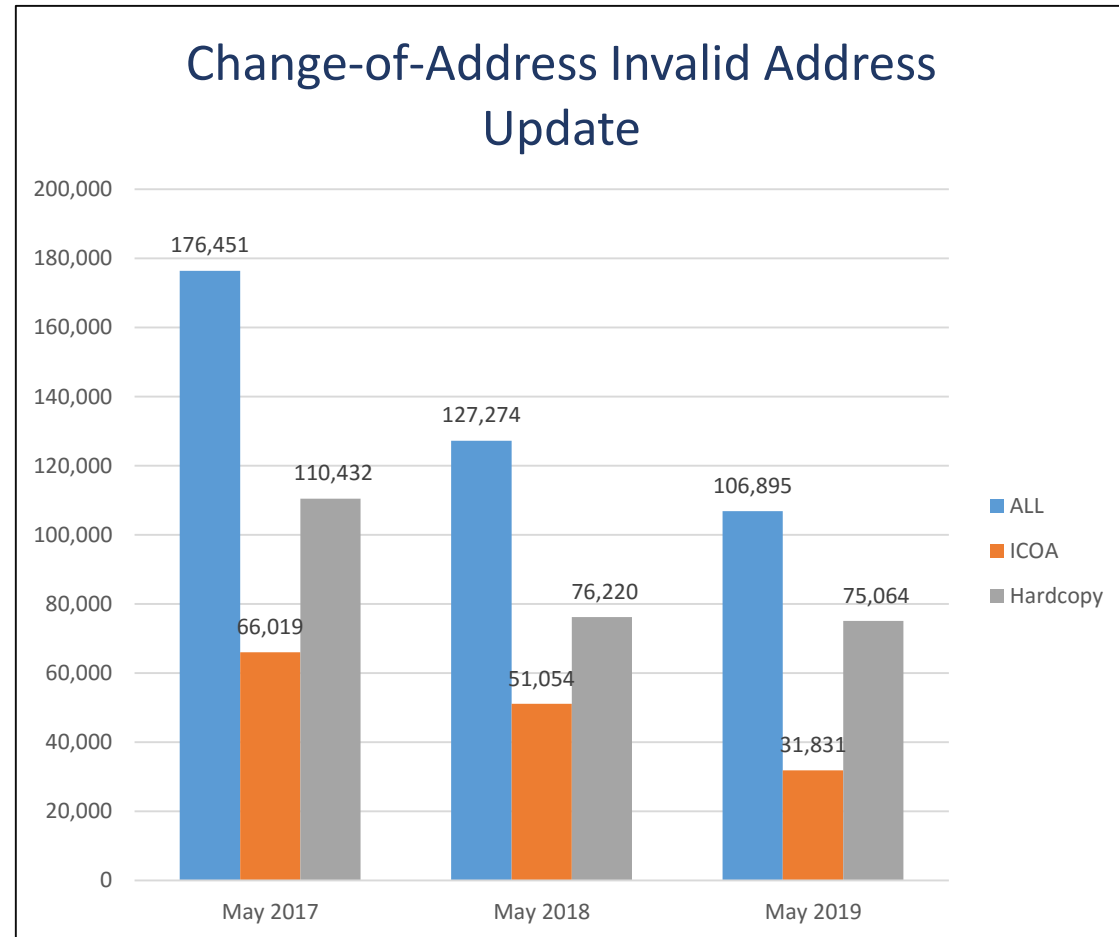

- Reduces daily print time by 6 hours which will allow MVLs to enter the mail stream sooner
- Includes Inspection Service seal to stress the importance of the letter

COA Address Improvements

- Decrease from May 2017 to May 2019
 - Overall – 40%
 - ICOA - 52%
 - Hardcopy – 32%

- How did we do it?
 - ICOA Rapid Key Implementation
 - Special Letters/Emails to Customers

Enhancements to MoversGuide Online application

- Improved interaction with customer to reduce COA issues. First week, 2,500 changed move type while answering questions
- Improved CMRA identification to reject COAs 17,000 invalid COAs yearly
- **Coming Soon:** Improve messaging to customer when address entered is invalid

Who's moving?

 Individual

 Family

 Business

Is the ENTIRE business moving? Yes No

More Information

Business
 Choose this option if your business is moving. Individual or Family orders that include a business address as the old address will not be processed. Existing or former employees cannot have their "personal" mail forwarded from a business.

Note: All mail sent to the business name entered below will be forwarded to the new address you're providing.

Who's moving?

 Individual

 Family

 Business

Do all individuals moving from this address share the same last name? Yes No

Is anyone with this same last name remaining at the address? Yes No

More Information

Family
 Choose this option and complete one form if everyone in your family has the same last name. If not all family members are moving, OR if some family members have different last names, choose the Individual option and submit a separate order for each mover.

Note: Filing a Family Change of Address means EVERYONE in the household with the same last name will have their mail forwarded to the address specified.

Recommendation Status

- 11 recommendations submitted
 - ✓ Recommendations 7,8 – Already implemented
 - ✓ Recommendations 1, 2, 4, 11 – Enhancements implemented
 - ✓ Special Letters/Emails
 - ✓ ICOA Rapid Key Implementation
 - ✓ AADE
 - ❖ Recommendation 9 – USPS unable to implement
 - Recommendation 11 – Forwarded to UG8 for consideration
 - Recommendations 3, 5, 6 – Under review

Extended Forwarding Concept

USPS® customers filing Permanent Changes-Of-Address currently receive mail forwarding for one year. After one year, mail sent to the “old” address is returned to sender.

What is Extended Forwarding?

Extended Forwarding gives moving customers the ability to request additional forwarding in 6 month increments for a fee:

- *Request made at USPS Retail Counters or online via MoversGuide*

Extended Forwarding Concept

Age of COA Compared to UAA Event				
	Permanent			
	% Family	% Individual	% Business	% All
Forwarded (Months 1-12)	92.9%	92.8%	86.1%	90.6%
RTS (Months 13-18)	7.1%	7.2%	13.9%	9.4%

ACS™ Documentation Updates

Notice 123:

- Updated to remove and clarify information
- Changes effective immediately
- Postal Bulletin published May 9, 2019 defines changes
- DMM updates effective June 23, 2019

<https://about.usps.com/postal-bulletin/2019/pb22519/pb22519.pdf>

Guide to Intelligent Mail for Letters and Flats:

- Document removed from PostalPro

ACS™ File Format Technical Guide

- Updated to remove outdated information
- Industry Alert published April 26, 2019

DMM Revision: Full-Service Automation Option

Effective June 23, 2019, the Postal Service™ will revise *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®), sections 507 and 705, to delete inaccurate Full-Service address correction notice charges.

DMM 705.23.5.2, “Address Correction Notices,” currently states that there are address correction notice charges for Periodicals letters and flats after 60 days, and for USPS Marketing Mail® letters and flats and Bound Printed Matter flats after 30 days. However, the Postal Service never implemented address correction notice charges for these products and timeframes. Those references do not accurately reflect charges associated with Full-Service address correction service in the Mail Classification Schedule (which is currently \$0.00 per notice). Therefore, the Postal Service will remove mention of these inaccurate address correction notice charges from DMM 705.23.5.2.

The Postal Service will also revise DMM sections 507.1.5.2c and 507.4.2.2d, and [Notice 123](#), *Price List*, to include these revisions.

Although the Postal Service will not publish these revisions in the DMM until June 23, 2019, the standards are effective immediately.

United States Postal Service®
INDUSTRYALERT

April 26, 2019

USPS updates to ACS Technical Guide posted on PostalPro™

USPS has updated the [ACS™ File Format Technical Guide](#) to remove outdated information. The updated document has been posted to [ACS File Format Technical Guide](#).

For additional information or assistance please contact the ACS Support department at 877-640-0724 (Option 1) or email acs@usps.gov.

PS 3579/3547 Hardcopy Notices

Parcel Mailers 3547 Volume

Yearly Parcel 3547 Volumes		
Total 3547 Printed	2,430,420	
Hardcopy Cost	\$0.61	\$ 1,482,556.20
ACS Cost	\$0.31	\$ 753,430.20
Cost Savings		\$ 729,126.00

Opportunity:

- Request ACS and SPF/SPR instead of Manual corrections
- Provide electronic notices to the parcel owner (charges for forwarding and return is included in the ACS data)
- Weighted fee for PSLW returns and 61¢ charge for manual notice avoided

Thank You!
