August 2, 2019

REMINDER: Scheduled System Activities – *August 4 and August 25*

The United States Postal Service has system releases scheduled for the following dates:

- Sunday, August 4, 2019
- Sunday, August 25, 2019

These are rolling releases and the systems will remain available during the cited timeframes.

This Sunday, **August 4**, 2019 from ==4:00 AM CT – 10:00 AM CT==, software changes will be implemented for the following system:

- *PostalOne!* System Release 49.0.2.1

PostalOne! System Release 49.0.2.1 is an expedited release that will update Mail.dat to correct a mapping issue resulting from a rate type check which was added in *PostalOne!* System Release 49.0.2.0 on July 28, 2019. The check is preventing some Extra Services from mapping correctly to the Extra Services "S" lines on the postage statement. Resolution of this issue involves a background data setting and will not require an updated Mail.dat client or any user interface changes.

On Sunday, **August 25**, 2019, from ==4:00 AM – 10:00 AM CT==, the following system releases are scheduled:

- *PostalOne!* System Release 49.1.0.0
- Enterprise Payment System (EPS) Release 3.9.0.0

REMINDER: *PostalOne!* System Release 49.1.0.0 will result in a new **required** Mail.dat client version. After the August 25 release deploys, users should download Mail.dat client version **49.1.0.0_PROD** from the Business Customer Gateway (BCG) using the following path: Mailing Services è Electronic Data Exchange [Go to Service] è Mail.dat download (Windows 32-bit, Windows 64-bit or Solaris).
