

USPS® Approved Shipping and Returns Consolidator Web Page Registration Application

The United States Postal Service® would like to provide an opportunity to companies who are consolidators for shipping and return services that can prepare mail to be entered for first and/or last mile delivery services to be listed on the new Approved Shipping and Returns Consolidators new web page. There is no cost or fee associated for approved consolidators to be listed on the United States Postal Service new web page; however, participating companies must complete the below application, meet criteria set forth for inclusion on the web set forth on Postal Pro and enter into a Consolidator Linking Agreement as well as a Trademark Licensing Agreement if selected for participation. In addition, companies selected for participation will be required to follow Style Guidelines for the use of any United States Postal Service trademarks and/or logos, and will need to furnish specific information and a company logo that meets specific standards for publication on USPS.com.

Instructions to Responders:

Interested shipping and return consolidators that meet the mandatory requirements are invited to complete this application in its entirety.

Please submit applications to the Business Alliances Office at USPSASRC@usps.gov.

All applications will be reviewed by the National Business Alliances Office for compliance with business criteria to determine the financial health and integrity of the company represented in the application. The applicant must provide a Tax Identification Number (TIN). If applicant does not have a TIN then a Tax Return from the preceding year must be supplied. Upon receipt of the completed application the USPS will request a credit report from one or more of the three major credit agencies (Experian, TransUnion, Equifax), and may also run a Dunn and Bradstreet Paydex Report in order to meet internal regulations related to the fiscal solvency of companies linked to from USPS.com. During the review processes the applicant may be required to provide additional company information before the review process can be completed.
