# INDUSTRYALERT

June 28, 2020

## COMPLETED: Scheduled System Releases – *Sunday, June 28, 2020*

Today (*Sunday, June 28, 2020*), the United States Postal Service implemented software updates for the following systems:

- *PostalOne!* System Release 51.0.1.0 (**New OPTIONAL Client**) \*
- Business Intelligence Database (BIDS) Release 51.0.1.0
- Enterprise Payment System (EPS) Release 3.12.1.0

These were “rolling” releases; and all systems remained available during implementation and validation activities.

**\*NOTE:** *PostalOne!* System Release 51.0.1.0 includes a new **optional** Mail.dat client. Users can download Mail.dat client **51.0.1.0\_PROD** from the Business Customer Gateway (BCG) using the following path: Mailing Services à Electronic Data Exchange [Go to Service] à Mail.dat download (Windows 32-bit, Windows 64-bit or Solaris). The updated Mail.dat client resolves the system error (“SEV2”) some users are receiving upon submission of a Mail Piece Unit (MPU)/Component Relationship (.mcr) file (*PostalOne!* System Issue 14048).

The **June 28, 2020 Release Notes** (**Change 3.0**) document is attached and also posted to PostalPro: <https://postalpro.usps.com/June282020ReleaseNotes>

**REMINDER: There were “NO” price changes scheduled for June 2020.**

All Business Service Administrators (BSAs) should alert their impacted stakeholders.

Please direct any inquiries or concerns to the *PostalOne!* Help Desk via eMail ([postalone@usps.gov](mailto:postalone@usps.gov)) or telephone (1-800-522-9085).
