COMPLETED: FAST System Release 48.0.0.0 – *Sunday, January 17, 2021*

Today (*Sunday, January 17, 2021*), the United States Postal Service implemented software updates for the following Commercial System:

- Facility Access and Shipment Tracking (FAST) System Release 48.0.0.0

Users were notified that, during the cited implementation and validation window, an outage was required. **The FAST System is now available.**

FAST System Release 48.0.0.0 included “*internal-only*” content; therefore, there is **no NEW functionality** which impacts customers. However, as a REMINDER, users will now notice a minor change when viewing the FAST System’s “*Facility Profile*” page.

As previously shared, below is a **SAMPLE** screenshot of the FAST System’s “*Facility Profile*” page which reflects NEW facility records with the text “**LOG**” [LOGISTICS] appended to the front of a **Facility Name**.

Again, please note that there is **NO contact information** referenced for these *pending* “**LOG**” [LOGISTICS] facility records and use of “*active*” facility records should continue. Additional information on the new **LOG** [LOGISTICS] facility records will be provided in the Pre-Release Notes for a future FAST System implementation.

All Business Service Administrators (BSAs) should alert their impacted stakeholders.

Please direct any inquiries or concerns to the FAST Help Desk via telephone (877-569-6614: *After-Hours - Option 3*).

Thank you.
