## 1.0 Introduction

On Thursday, March 25, 2021, the United States Postal Service implemented the following software changes:

- Business Intelligence Database System (BIDS) Release 52.0.0.2

These Release Notes provide the contents of the releases and affected subsystems.

The section titled **Corrections to Known Issues** is derived from External Trouble Reports (ETRs) and Engineering Change Requests (ECRs) for inclusion in this release.

This document is prepared based on the knowledge available at the time of its publication and any element may be subject to change prior to publication.

## 2.0 Business Intelligence Database System (BIDS) - Corrections to Known Issues

### 2.1 MicroStrategy Reporting

An issue was corrected to enable postage statement data from the *PostalOne!* System to be loaded to BIDS. Prior to this release, this data failed to load due to an unexpected database error related to the Daylight Savings Time change. As a result, the volume aggregates on the Mailer Profile tab were not always updated for external Mailer Scorecard users. [85-BI](#)
