INDUSTRY ALERT

June 11, 2021

Seamless tab on the Mailer Scorecard will be renamed Seamless / Automated Verifications

Effective June 27, 2021, the Seamless tab on the Mailer Scorecard will be renamed **Seamless / Automated Verifications**. This tab will be updated to display invoicing data and assessment amounts for the Automated Verifications program.

Other changes to the Mailer Scorecard include:

- The CRID Seamless Status line is now the **CRID Seamless / Automated Verification Status** line and will identify CRIDs as **Seamless** (activated for Seamless Acceptance); **Automated Verification** (submitting Full-Service, but not activated for Seamless); or **Inactive** (not submitting Full-Service)
- Two new sections now appear on the Seamless / Automated Verifications tab. (Note: the same data will appear in both sections for Nesting Sortation Piece Errors (MPE) and Delivery Point Piece errors)
 1. **Seamless Verifications** - this data applies only to mailers with CRIDs in Seamless status
 2. **Automated Verifications** - this data applies only to mailers with CRIDs in Automated Verifications status
- The Seamless tab's *Sampling Validations – Info Only* section has been renamed "**Nesting Sampling Validations – Info Only**".
- Fact sheet can be found at <https://postalpro.usps.gov/full-service-auto-verification>

Undocumented Pieces error data will be populated for all Full-Service Mailers. However, only Seamless activated CRIDs are subject to postage assessments for these errors. Undocumented Pieces data for CRIDs in Automated Verification status is for informational use only.
