August 26, 2021

## COMPLETED: Package Platform Release 2.7.1.0 – August 26, 2021

Today (Thursday, **August 26**, 2021), the United States Postal Service implemented software updates for the following system:

- Package Platform Release 2.7.1.0

The “**updated**” Package Platform Release 2.7.1.0 Release Notes (*Change 2.0*) document is attached and also posted to PostalPro @ <https://postalpro.usps.com/PackagePlatformRelease2.7.1.0-Aug262021-ReleaseNotes>. Change 2.0 edits include removing the DRAFT watermark and modifying the language in the text to reflect post-deployment references.

As previously advised, during the cited implementation and validation window, there was an impact to **Package Platform and the Enterprise Payment System (EPS)** resulting in delayed receipt of the following datasets:

- **USPS Returns and Outbound** service data feeds via Informed Visibility-Mail Tracking and Reporting (IV-MTR)
  - Pricing Notification
  - Final Notification
- EPS data feeds to IV-MTR

**Data is now current.**

We apologize for any inconvenience.

**NOTE: Delivery of packages WAS NOT be impacted.**

All Business Service Administrators (BSAs) should alert their impacted stakeholders.

Please direct any inquiries or concerns to the **IV Solutions Center** via eMail ([InformedVisibility@usps.gov](mailto:InformedVisibility@usps.gov)) or telephone (1-800-238-3150, Option 2).
