1.0 Introduction

On Tuesday, August 17, 2021, the United States Postal Service implemented the following software change:

- *PostalOne!* System Release 53.0.0.2

These Release Notes provide the contents of the release and affected subsystems.

This document is prepared based on the knowledge available at the time of its publication and any element may be subject to change prior to publication.

2.0 *PostalOne!* System – Corrections to Known Issues

2.1 Electronic Data Exchange

Mail.dat processing was updated to correct an issue that previously impacted Periodicals mailings submitted by Mail.dat 21-1 claiming pre-August 29, 2021 rates, preventing the mailings from receiving bundle or container charges. The issue was introduced in *PostalOne!* System Release 53.0.0.0 on August 15, 2021 when incorrect supporting reference data was inadvertently deployed. The missing Mail.dat 21-1 container level reference data was restored to resolve the issue. [14707](#)
