RELEASE CONTENT

PostalOne! System Release 53.0.1.1 is an EXPEDITED release to resolve two (2) issues as summarized below.

- **Postage Statement Processing – “Display Issue” Only**
Although the actual incentive amount is calculated accurately, some large mailing submissions claiming incentives are displaying a higher than actual incentive piece count. This “display” issue will be resolved.
- **Commercial Package Intercept (CPI)**
An issue was inadvertently introduced in *PostalOne!* System Release 53.0.0.0 on August 15, 2021 which impacts the processing of Commercial Package Intercept (CPI) transactions submitted on or after August 15, 2021. This issue will be resolved.

For “detailed” descriptions of these two (2) issues, please reference the ***PostalOne!* System Release 53.0.1.1 Pre-Release Notes (Change 1.0)** attached and also posted to PostalPro @ <https://postalpro.usps.com/postalone!-Release-53.0.1.1-release-notes-09022021>
