# INDUSTRYALERT

August 18, 2021

[RESOLVED: INCIDENT #06143325]

**EXPEDITED *PostalOne!* System Release 53.0.0.2 (08.17.2021)**

On (Tuesday, **August 17**, 2021), the United States Postal Service implemented an EXPEDITED software update for the following system:

- *PostalOne!* System Release 53.0.0.2

Mail.dat processing was updated to correct an issue that previously impacted Periodicals mailings submitted by Mail.dat 21-1 claiming pre-August 29, 2021 rates, preventing the mailings from receiving bundle or container charges. The issue was introduced last Sunday (August 15, 2021) in *PostalOne!* System Release 53.0.0.0 when incorrect supporting reference data was inadvertently deployed. The missing Mail.dat 21-1 container level reference data has been restored to resolve the issue.

**NOTE:** Only Mail.dat submitted files are impacted. Impacted customers will be contacted to resolve Postage Statement issues.

The ***PostalOne!* System Release 53.0.0.2 Release Notes (Change 1.0)** document is attached and also posted to PostalPro @ <https://postalpro.usps.com/postalone!-Release-53.0.0.2-release-notes>.

All Business Service Administrators (BSAs) should alert their impacted stakeholders.

During normal business hours, please direct any inquiries or concerns to the Mailing and Shipping Solutions Center (MSSC) via eMail [ [MSSC@usps.gov](mailto:MSSC@usps.gov) ] or telephone [ (877) 672-0007 ].
