Changes in the Dimensions for 14 Expedited Packaging Supplies

The United States Postal Service is working on an effort to increase mail piece visibility throughout the processing network. USPS produces and fulfills over 181 million of Standard and Specialized Expedited Packaging Supplies (Priority Mail Express, Priority Mail and Global Express Guaranteed) orders annually. Standard Packaging is available on the USPS.com/Postal Store and some items are available in Retail Offices. Specialized Packaging is available for larger customers that provide the USPS with a minimum of \$75,000 in revenue annually. After reviewing the Standard and Specialized packaging, the USPS is changing the dimensions of 11 Standard and three Specialized items to meet the mail processing equipment machinability criteria. These boxes and envelopes are listed in the two tables below with the current and new dimensions; changes are indicated in red font.

Changing the dimensions will allow the boxes and envelopes to be processed on mail processing equipment more efficiently, increase visibility, and reduce the need for manual package sortation.

The Expedited Packaging Supplies with new dimensions will go into effect in late September 2021. The USPS will continue to fulfill orders for the Expedited Packaging Supplies with the current dimensions while supplies last. Once supplies with the current dimensions have been depleted, orders for these items will be fulfilled with the new dimensions.

Standard Packaging

Item No.	Item	Current Outside Dimensions	New Outside dimensions
LFRB	Priority Mail Large Flat Rate Box	6" (H) x 12-1/4" (W) x 12-1/4" (L)	6" (H) x 12" (W) x 12-1/4" (L)
