INDUSTRY ALERT

September 1, 2021

REMINDER: *PostalOne!* System Release 53.0.1.1 – Thursday, September 2, 2021

As previously advised, tomorrow (Thursday, *September 2, 2021*), from **08:00 PM CT – 11:30 PM CT**, the United States Postal Service will implement software updates for the following system:

- *PostalOne!* System Release 53.0.1.1*

[* *PostalOne!* System Release 53.0.1.1 **DOES NOT** include a NEW Mail.dat Client.]

During the cited implementation and validation window, access to the *PostalOne!* System **WILL NOT** be impacted. Notification will be provided at the conclusion of system activities.

RELEASE CONTENT

PostalOne! System Release 53.0.1.1 is an **EXPEDITED** implementation to resolve two (2) issues as summarized below.

- **Postage Statement Processing** – “Display Issue” Only
Although the actual incentive amount is calculated accurately, some large mailing submissions claiming incentives are displaying a higher than actual incentive piece count. This “display” issue will be resolved.
- **Commercial Package Intercept (CPI)**
An issue was inadvertently introduced in *PostalOne!* System Release 53.0.0.0 on August 15, 2021 which impacts the processing of Commercial Package Intercept (CPI) transactions submitted on or after August 15, 2021. This issue will be resolved.

For “detailed” descriptions of release content, please reference the ***PostalOne!* System Release 53.0.1.1 Pre-Release Notes (Change 2.0)** document attached and also posted to PostalPro @ <https://postalpro.usps.com/postalone!-Release-53.0.1.1-release-notes-09022021>. As reflected in the *Document History*, the sole **Change 2.0** edit was removal of the DRAFT watermark.

All Business Service Administrators (BSAs) should alert their impacted stakeholders.

During normal business hours, please direct any inquiries or concerns to the Mailing and Shipping Solutions Center (MSSC) via eMail [MSSCAdmin@usps.gov] or telephone [(877) 672-0007].
