# Preparing for a successful 2021 peak season

We began planning for this upcoming holiday season earlier than any other year. We have accelerated key processing, logistics, and delivery investments to meet customers' evolving mail and package needs. Our proactive measures not only correspond to challenges faced last year but also align to our Delivering for America plan. The organization is executing on strategies to pull together **people**, **technology**, **transportation**, **equipment**, and **facilities** into a well-integrated and streamlined mail and package network. Our preparations include:

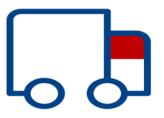

Stabilizing the workforce through improved retention and non-career to career conversions and amplifying our hiring efforts to fill every available position and ensure an adequate employee base for peak season.

**Expanding our facility** footprint by leasing millions of additional square feet in facility annexes to create more space for package processing and prevent bottlenecks.

**Procuring additional** package sortation equipment to accommodate and expedite the handling and sortation of increased package volumes.

**Ensuring reliable** transportation options by leasing trailers dedicated for peak season and diversifying the volume traveling across the air network among additional air carriers and more reliable surface transportation providers.

## Retail and Delivery Peak Readiness

As we plan for a peak like no other, our focus has been in four main areas to ensure a flawless execution of our operational plays.

- People
- Product
- Process
- Technology

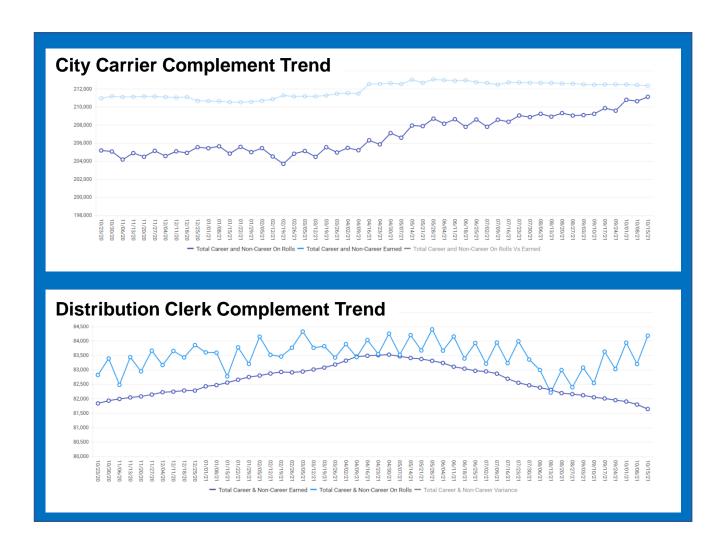

# **Peak Staffing**

### **Retail and Delivery Peak Staffing**

- Hiring 5K City Carriers
- Hiring 10K Distribution Clerks
- Close the Gap to Cap prior to peak holiday hiring
- Employee Availability

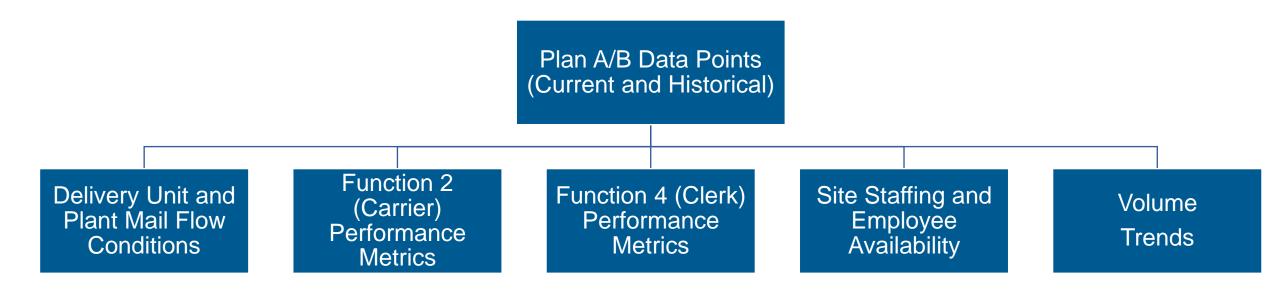

### Plan A/B

#### Plan A/B Overview

- Plan A/B leverages several data sources (including some previously unavailable), looking at historical
  and current information, and triangulates over thirty data points to identify top opportunity offices and
  ensure service responsive workload solutions
- Headquarters has a dedicated team who will work alongside Field leadership to provide additional support and resources to those identified opportunity offices to support Peak operations
