REMINDER: Service Type ID Table Updates for Ballot Mail and Political Mail

Based on Industry feedback, the Service Type ID (STID) table available on PostalPro is being updated to include new STIDs for Ballot Mail and Political Mail that may be used when preparing mail for mailing on and after January 23, 2022.

Use of the appropriate STIDs allows for Informed Visibility® Mail Tracking & Reporting (IV-MTR) to identify mailpieces, with all expected service combinations, during mail processing. These new STIDs are only for use on Ballot Mail or Political Mail.

Ballot Mail is any Official Ballot mailed to or from authorized election officials.

Political Mail is any material mailed for campaign purposes by a registered political candidate, campaign committee, or committee of a political party, or political message mailing by a political action committee (PAC), super PAC, or other organization engaging in an effort to influence or drive voter mobilization.

NOTE: For other Election Mail (e.g., voter registration applications, polling place locations, absentee applications, sample ballots) use the appropriate STID for the mail class and ACS™ and IV®-MTR services desired that are identified for First-Class Mail® (page 2) or USPS Marketing Mail® (page 4) of the STID Table. The Election Mail attribute in eDoc (electronic documentation) should be used to identify a mailing that contains any type of Election Mail.
