INDUSTRY ALERT

February 11, 2022

[NO CUSTOMER IMPACT] *PostalOne!* System Release 54.0.2.1 – **Sunday, February 13, 2022**

This Sunday (**February 13, 2022**), from **8:00 AM CT – 11:00 AM CT** [after scheduled Business Customer Gateway (BCG) maintenance activities conclude], the United States Postal Service (USPS) will implement an EXPEDITED software update to resolve two (2) known issues impacting *PostalOne!* System functionality:

- *PostalOne!* System Release 54.0.2.1

During the cited timeframe, **access to the *PostalOne!* System WILL NOT be impacted**. However, if connectivity issues are experienced, users should log-in again.

Sunday's EXPEDITED *PostalOne!* System Release 54.0.2.1 will resolve the two (2) known issues as described below:

- **eVS Manifest Processing [Incident #06536040]**

An update will be made to resolve a Pricing issue impacting Electronic Verification System (eVS) manifesting of mailpieces with **Oversized dimensions**. Currently, mailpieces not manifested as **Oversized** but having **Oversized dimensions** may not be priced correctly.

- **Carbon Accounting Report**

The Carbon Accounting Statement Report (non-eVS) will be updated to add the current Year (2022) to the drop-down selection menu. Currently, when accessing the drop-down functionality to populate entries in the report, “**2022**” – (the current year) does not reflect as an option to select. This issue impacts both internal and external users.

Notification will be provided when this scheduled system activity concludes. We apologize if users experience any unanticipated inconvenience.

NOTE: Delivery of packages IS NOT impacted during scheduled system events.

All Business Service Administrators (BSAs) should alert their impacted stakeholders.

During normal business hours (**7:00 AM CT – 7:00 PM CT**), direct any inquiries or concerns to the Mailing and Shipping Solutions Center (MSSC) via eMail [MSSCAdmin@usps.gov] or telephone [(877) 672-0007].

Thank you.
