INDUSTRYALERT

March 29, 2022

[MAR-31-2022: DELAYED DATA FEEDS] *USPS Returns and Outbound service via IV-MTR and EPS to IV-MTR*

On **Thursday, March 31, 2022**, from **09:00 AM CT – 04:00 PM CT**, the United States Postal Service will perform scheduled Commercial Systems' maintenance which is critical to our technology infrastructure.

During the cited timeframe, there will be an impact to **Package Platform and the Enterprise Payment System (EPS)** resulting in delayed receipt of the following datasets:

- **USPS Returns and Outbound** service data feeds via Informed Visibility-Mail Tracking and Reporting (IV-MTR)
 - Pricing Notification
 - Final Notification
- **EPS** data feeds to IV-MTR

Based on assessments of forecasted volume, it is anticipated impacted data will be current no later than end of day on the same day [**Thursday, March 31, 2022**]. However, following standard protocol - data processing will be monitored; and updated status assessments provided, as warranted.

We apologize for any inconvenience.

NOTE: Delivery of packages IS NOT impacted during scheduled system events.

All Business Service Administrators (BSAs) should alert their impacted stakeholders.

During normal business hours (**7:00 AM CT – 5:00 PM CT**), please direct any inquiries or concerns to the **IV Solutions Center** via eMail [InformedVisibility@usps.gov] or telephone [*1-800-238-3150, Option 2*].

Thank you.
