8.0 DOCUMENT HISTORY 30

1.0 Introduction

On Sunday, June 26, 2022, the United States Postal Service implemented the following software changes:

- *PostalOne!* System Release 55.0.0.0
- Enterprise Payment System (EPS) Release R4.7.0
- Program Registration Release 23.4.0.0
- Package Platform Release 5.0.0.0 [Deployment on June 23, 2022]

These Release Notes provide the contents of the release and affected subsystems.

The sections titled **Corrections to Known Issues** are derived from External Trouble Reports (ETRs) and Engineering Change Requests (ECRs) for inclusion in these releases.

This document was prepared based on the knowledge available at the time of its publication; any element of its contents is subject to change prior to the release.

The Price Change (Rate Case) Effective date was set as July 10, 2022.

2.0 Mail.dat Client Support

Please note the following regarding the Mail.dat client download.

There was a new Required Mail.dat client with this release. Users should download Mail.dat client 55.0.0.0_PROD from the Business Customer Gateway (BCG) using the following path: Mailing Services → Electronic Data Exchange [Go to Service] → Mail.dat download (Windows 32-bit, Windows 64-bit or Solaris).

3.0 Applicable Technical Specifications

3.1 *PostalOne!* System Mail.dat eDoc Specification Version Support

Table 1 represents the Mail.dat specification versions that were supported in the July 2022 release.

<i>PostalOne!</i> Mail.dat (eDoc) Version Support			
Versions	Currently Supported Versions (Prior to June 26, 2022)	Post-Release Supported Versions (On and after June 26, 2022)	Post-Price Change Supported Versions (On and after July 10, 2022)
21-1 (Errata)	Supported	Supported	Supported
22-1 (Errata)	Supported	Supported	Supported
REMINDER: The June 26, 2022 release requires a NEW Mail.dat Client to support Mail.dat submissions.			

Table 1: Mail.dat eDoc Version Support

**Industry and USPS review determined the necessity of new (major) or errata version*

3.2 PostalOne! System Mail.XML eDoc Specification Version Support

Table 2 represents the Mail.XML specification versions that were supported in the July 2022 release.

<i>PostalOne! Mail.XML (eDoc) Version Support</i>			
Versions	Currently Supported Versions (Prior to June 26, 2022)	Post-Release Supported Versions (On and After June 26, 2022)	Post-Price Change Supported Versions (On and after July 10, 2022)
24.1	Supported	Supported	Supported
25.0	Supported	Supported	Supported
24.2		Supported	Supported
25.1		Supported	Supported
Note: No change to currently-supported versions.			

Table 2: Mail.XML eDoc Version Support

Note: New Mail.XML WSDLs are posted on PostalPro at <https://postalpro.usps.com/> as they become available.
2 – Industry and USPS review will determine the necessity of new (major) or minor version

3.3 PostalOne! System Mail.XML Data Distribution, MID-CRID, and FAST Specification Version Support

Below are the technical specification versions supporting Mail.XML Data Distribution, MID-CRID, and Facility Access and Shipment Tracking (FAST) System in *PostalOne!* System Release 55.0.0.0.

Versions	Data Distribution Mail.XML		MID-CRID Mail.XML		FAST Mail.XML	
	Currently Supported Versions (Prior to Release)	Post-Release Supported Versions	Currently Supported Versions (Prior to Release)	Post-Release Supported Versions	Currently Supported Versions (Prior to Release)	Post-Release Supported Versions
14.0A	Supported	Supported	Supported	Supported	Supported	Supported
16.0	Supported	Supported	Supported	Supported	Supported	Supported
Note: No change to currently-supported versions.						

Table 3: Mail.XML Data Distribution, MID-CRID, and FAST Version Support

3.4 Shipping Services File (SSF) Version Support

Below are the technical specification versions supporting Shipping Services Files (SSFs) in the *PostalOne!* System Release 55.0.0.0.

eVS Shipping Services File Version Support		
Versions	—Pre-Release— Versions Supported Prior to July 10, 2022	—Post-Release— Versions Supported On and After July 10, 2022
1.6	Supported	Supported
1.7	Supported	Supported
2.0	Supported	Supported
Legend: 1 – Express Mail Corporate Accounts 2 – Electronic Marketing Reporting System		
Note: No change to currently-supported versions. Version 1.3 will be only supported till December 2022 for EMRS/EMCA. Version 1.4 is no longer supported		

Table 4: SSF Version Support

4.0 PostalOne! and Package Platform System — Enhancements, Updates, and New Functionality

4.1 Addition of Cubic Tiers to Parcel Select Ground

The USPS added cubic pricing tiers available for Parcel Select Ground. Similar to Priority Mail Cubic products this product helps customers to ship small dense packages under Parcel Select Ground prices. This product didn't apply the DIM (dimensional weight) pricing. This allows for Parcel Select Ground delivery of parcels up to 20lbs. with cubic tiers while maintaining machinability.

4.1.1 BMEU and Postal Wizard Postage Statement Changes to PS Form 3605 — Part D

PS Form 3605 — Parcel Select Ground part was updated to include Cubic Tier pricing as below

Line	Zone	Rate	Status/Change
D26-105	LC, 1 to 9	Tier 1 to 10	New Lines

Table 5: Package Services (PS Form 3605 Part D) Changes

4.1.2 Mail.Dat changes to PS Form 3605 — Part D Parcel Select Ground (Cubic)

New MPU and CPT Rate types were introduced in this change to PS 3605 Part D.

- Section Label: Parcel Select Ground (Cubic)
- Weight: ≤20 LBS
- Table 6 is for reference only. Follow Mail.Dat technical specifications for up-to-date details posted on PostalPro.

Table 10: SSF Changes to Parcel Select Ground — Cubic for Soft Packs

- eVS was mapped to PS 3605 lines D26-105 based on the manifest submitted using above rate ingredients for Soft Packs
- Soft Pack Length + Width and corresponding Tiers are mapped per Table 10:

4.2 Priority Mail Cubic Removal of Minimum Volume Requirement

The USPS will support shippers by making Priority Mail cubic prices available to all Priority Mail Commercial shippers. This proposal will result in removal of the restriction that only customers shipping more than 50,000 pieces are allowed to access these rates.

4.2.1 BMEU and Postal Wizard Postage Statement Changes to PS 3600 PM

- Part C section was relabeled to include Commercial Base “Priority Mail — Permit Imprint — Commercial Base/Commercial Plus”
- Part C footnote “* C1–C40 for Commercial Plus Cubic eligible mailers only” is removed
- Weight ≤20 lbs.

Table 11: BMEU and Postal Wizard Postal Statement Changes

4.2.2 Mail.dat changes to PS 3600 PM

- Existing rate ingredients allow for Commercial Base prices. The field .mpu Rate Schedule with a Blank value represents the Commercial Base rates. If job claims Commercial Plus and Permit is not eligible then the job is rejected (Error). If job claims Commercial Base and the Permit is authorized for Commercial Plus then the *PostalOne!* System automatically applies Commercial Plus rates. Table 12 is for reference only.
- Follow Mail.Dat technical specifications for up-to-date details posted on PostalPro.

Table 13: Mail.XML Changes to PS 3600 PM (Part C)

4.3 Centroid-based 3D/3D Zone Calculation

The USPS aligned zone determination to the customer perspective by leveraging new technology to determine distances more precisely from an origin location to a destination location. This changed the end-to-end definition of zone determination from a historically calculated facility-based 3D-to-3D ZIP Code pair to a centroid-based 3D-to-3D ZIP Code pair using entry and delivery ZIP Code-based location technology.

The updated zone chart matrix has kept its current design/format and should not require design changes in mailing software. The zone chart matrix will be effective with the price change effective date.

Note: The Zone Chart has an effective date of July 10, 2022. This Zone Chart data was published on June 1, 2022.

- **Postage Statement Changes:** No Impact
- **Pricing Structure:** No Impact
- **Mail.dat changes:** No Impact
- **Mail.XML changes:** No Impact
- **Shipping Services File (SSF) Changes:** No Impact
- **Indicium Creation Record (ICR) File:** No Impact
- **Price Change Type / Product Type:** Market Dominant / Competitive

4.4 Determining Insurance in Priority Mail Returns

The USPS added the predetermined \$100 insurance to all Priority Mail Returns. If packages require insurance for amounts over \$100, this service is supported by Package Platform under the USPS Returns products.

- **Postage Statement Changes:** No
- **Pricing Structure:** No Impact
- **Mail.dat changes:** No Impact
- **Mail.XML changes:** No Impact
- **Shipping Services File (SSF) Changes:** No Impact. The existing fields of Extra Service Codes (1 through 5) and Value of Article are used to apply insurance fees.
- **Indicium Creation Record (ICR) File:** No Impact
- **Price Change Type / Product Type:** Market Dominant/Competitive

4.5 Determining Insurance in Priority Mail Outbound

The USPS updated the predetermined \$100 insurance to all Priority Mail outbound shipments. If packages require insurance for amounts over \$100, the shippers are able to purchase insurance outside of the predetermined amount.

- **Postage Statement Changes:** No
- **Pricing Structure:** No Impact
- **Mail.dat changes:** No Impact
- **Mail.XML changes:** No Impact
- **Shipping Services File (SSF) Changes:** No Impact. The existing fields of Extra Service Codes (1 through 5) and article value are used to apply insurance fees.
- **Indicium Creation Record (ICR) File:** No Impact
- **Price Change Type / Product Type:** Market Dominant/Competitive

4.6 Direct Container Discounts for USPS Marketing Mail Flats

The USPS discounts USPS Marketing Mail Saturation and High-Density Flats that are prepared on direct containers (a.k.a. 5-Digit CRRTS, Carrier Route Pallets, and Pure Pallets, including handling units). These containers can be directly cross docked to the Destination Delivery Units (DDUs). These containers consist of Carrier Route and finer bundles such as Basic, High Density, High Density Plus and Saturation. These containers do not require bundle sorting operations, which allows the USPS to avoid moving these containers to bundle sorters within the plant, sorting the bundles, and moving these bundles back to the dock to be transported to the DDU.

4.6.1 BMEU and Postal Wizard Postage Statement Changes — PS Form 3602 Regular and Non-Profit

- Postage Statement Changes — PS Form 3602 R/N
 - The Direct Pallet/Bundle lines and prices were replaced by new discount pricing lines that represent the direct container discounts. New container discount lines are available for: Saturation & EDDM, High Density Plus, High Density, and Basic sorts. Any pieces nested on Direct containers must be documented on the Direct Container discount lines.
 - For a final list of lines, please refer to the draft Postage Statements (to be published on Postal Explorer; pe.usps.com).

4.7 Nonautomated DVD Price Structure Change

The USPS added Mixed AADC and AADC Prices for Nonautomation Round Trip Mailings that contain a DVD, CD, or other disk. This structural change aligned the DVD Price structure to the letter price structure for Market Dominant First-Class Mail.

4.7.1 BMEU and Postal Wizard Postage Statement Changes to PS 3600 FCM

PS 3600 FCM was updated to support Nonauto DVD structure Part D.

Below lines were removed from PS 3600 FCM

- Presort Letters
- Presort Flats

Below lines were added/updated for PS 3600 FCM

- For Machinable Letters
 - New sorts for AADC
 - New sorts for Mixed AADC
- For Nonautomation Flats
 - New sorts for ADC
 - New sorts for Mixed ADC.

The block labels of Presort Letters will be changed to Machinable Letters

The block labels of Presort Flats will be changed to Nonautomation Flats

Line numbers and Subtotal/Total lines will be updated accordingly for PS 3600 FCM – Part D; see table below for reference

- Table 19 is for reference only. Follow [Postal Explorer](#) for up-to-date details on Postage Statements.

4.7.1.1 Postage Statement Changes to PS 3600 FCM for Existing Lines

Line Number	Section Label	Block Label	Line Label
6	Round Trip Mailings DVD, CD, or Other	Machinable Letters	Single Piece
7	Round Trip Mailings DVD, CD, or Other	Automation Flats	5 – Digit
8	Round Trip Mailings DVD, CD, or Other	Automation Flats	3 – Digit
9	Round Trip Mailings DVD, CD, or Other	Automation Flats	ADC

Added	12	Round Trip Mailings DVD, CD, or Other	Nonautomation Flats	Mixed ADC	FL	L6	R	N	≤13 oz.

Table 24: Mail.XML changes to PS 3600 FCM (Part D)

4.8 Eliminating Special Handling–Fragile

The USPS discontinued the Special Handling-Fragile Extra Service. This extra service is currently available for Domestic Mail and can be added at the time of mailing. This extra service is currently supported for Priority Mail, Priority Mail Express, First-Class Package Service, Parcel Select Ground, and Parcel Select products.

4.8.1 Postage Statement Change for Eliminating Special Handling-Fragile

Table 28: SSF Changes to Extra Service code S13/ESC852

4.9 Qualified Business Reply Mail Uniform Rate

The USPS created a new QBRM rate structure that has a single price for QBRM Letters (this includes Basic and High Volume QBRM) weighing up to 3.5 ounces. This allows use of the Intelligent Mail barcode Accounting (IMbA) process for automated accounting to reduce the amount of manual handling of BRM mail pieces, and to make Reply Mail processing more efficient.

- **Postage Statement Changes:** No
- **Pricing Structure:** Pricing Structure / Notice 123 structure updates
- **Mail.dat changes:** No Impact
- **Mail.XML changes:** No Impact
- **Shipping Services File (SSF) Changes:** No Impact
- **Indicium Creation Record (ICR) File:** No Impact
- **Price Change Type / Product Type:** Market Dominant

4.10 Proposed Price Change

The *PostalOne!* System and Package Platform System were updated to support new pricing structures and rates for domestic and international mailings, effective July 10, 2022. To accommodate the pricing and structural changes the Postal Service updated domestic and international postage statements to reflect the prices in the July 2022 Notice 123, effective July 10, 2022. All postage statements will be updated to reflect “July 2022” in the footer. The changes will apply to electronic submissions, Postal Wizard and BMEU submissions, and hard-copy postage statements (including downloads).

4.10.1 Postage Statement Updates

To support the June 2022 price change the following postage statement changes will be made:

PS Number	Section to Review for Change
PS 3605	<ul style="list-style-type: none"> • BMEU and Postal Wizard Postage Statement Changes for PS Form 3605 - Part D • Postage Statement Change for Eliminating Special Handling-Fragile
PS 3600 FCM	<ul style="list-style-type: none"> • BMEU and Postal Wizard Postage Statement Changes for PS 3600 FCM • Postage Statement Change for Eliminating Special Handling-Fragile
PS 3600 PM	<ul style="list-style-type: none"> • BMEU and Postal Wizard Postage Statement Changes for PS 3600 PM • Postage Statement Change for Eliminating Special Handling-Fragile
PS 3602 R/N	<ul style="list-style-type: none"> • BMEU and Postal Wizard Postage Statement Changes – PS Form 3602 Regular and Non-Profit • Postage Statement Change for Eliminating Special Handling-Fragile

Table 29: Postage Statement Update for Proposed Price Change

5.0 PostalOne! System -- Corrections to Known Issues

5.1 Informed Delivery® Promotion

- An update was made to Mail.dat and Mail.XML eDocs to support several new campaign generation fields so that Informed Delivery® can accurately identify the associated mail owner CRID and mail piece shape. Mailers are able to opt in/out of the MID-URL parameter and social sharing, so that a mail owner can control mail recipient sharing of campaign info from the dashboard or daily digest. [CR 14620](#)
- An update allows mailers participating in Informed Delivery® promotion to verify (in advance) whether their statement will receive the ID promotion discount and correct any issues. [CR 14910](#)

5.2 Electronic Documentation

- Support for rate category 'O' within Mail.dat submissions was removed. [CR 14915](#)
- Support for rate category 'O' within Mail.XML submissions was removed. [CR 14916](#)
- An update added job descriptions/names to XLS, CSV and PDF download of BCG View Transaction Report. [CR 15011](#)
- Updates were made to enable mailers to submit eDocs container parcels/saturation mail using their Seamless CRID. [CR 14582](#)
- The.mpu Machinability Indicator and .mpu MPU Surcharge verifies values in a valid combination. [CR 15030](#)

Input MPU Surcharge	.mpu Machinability
N = Not Oversized	Y or U or N
O = Single PC Non-Std Surcharge	Y or U or N
Q = Residual Shape Surcharge	Y or U or N
R = Non-Mach Surcharge	N
S = Presort Non-Std Surcharge	Y or U or N
D = Dim Weight-Rectangular	Y or U or N
T = Dim Weight-Non-Rectangular	Y or U or N
1 = Parcel > 84" < 108"	N
2 = Parcel > 108" < 130"	N

Table 30: .mpu Valid Combinations (For Reference Only)

5.3 Electronic Verification System (eVS®)

- An update was made to modify the Revenue Reallocation Report to include EPS revenue in addition to CAPS revenue. [CR 14931](#)
- An update was made to resolve the issue related to statements submitted before the payment account is activated which defaults to CAPS. [ETR 14968](#)
- *PostalOne!* – eVS implemented a solution to the issue that eVS mailers manifesting with invalid permit information had pieces go to manifest errors without postage calculation being charged as per unmanifested prices (Published Prices). [CR 14900](#)
- *PostalOne!* – eVS was updated to eliminate overwriting of eVS calculated flat-rate postage when the postage statement is assembled. [ETR 14901](#)
- *PostalOne!* – eVS OD (Open and Distribute) single-piece records are exempt from dimensional nonstandard and noncompliance assessments. EVS incorrectly charged dimensional nonstandard and noncompliance fees for open and distribute records. [ETR 15099](#)
- An update fixed the issues that occurred with Barcode Verification in the Chrome browser. [ETR 15013](#)
- The update no longer duplicates transaction numbers for fee payment and mailing transaction. [ETR 15023](#)

5.4 Auto Fee Renewal

- Auto Fee Renewal update resolved the issue of Permit Auto Fee Renewal when process fails due to insufficient funds. [ETR 15020](#)

5.5 Intelligent Mail Barcode Accounting (IMbA®)

An update prevents generation of the QBRM invoices for cancelled IMbA permits. [CR 14569](#)

6.0 Enterprise Payment System (EPS) – Corrections to Known Issues

6.1 Account Alerts/Notification for Low Balance

- A USPS update created a new function to make a low balance alert, required for all EPS accounts, that are set for all product types. Low balance alerts are configurable by mailer, have a default value of \$XXXX (adjustable from the Admin Console), and are set to send to mailer and USPS. [CR 1620](#)
- A USPS update notifies the customer when their EPS account is closing due to two years of inactivity. Customers need notice to use their EPS account before two years of inactivity to keep it from closing automatically by the system. [CR 1929](#)
- An update created the capability to send communications to mailers when balance becomes/remains negative.
 - **First Negative Balance Communication** – Once an account has reached a negative balance state, a systematic communication will be sent to mailer and USPS. This communication will inform the mailer that their account is in a negative balance state.
 - **Second Negative Balance Communication** – If account balance stays in a negative balance state (more than negative \$500) for 3 calendar (make configurable) days, a follow-up communication is systematically sent to mailer and USPS stating that the account has remained in a negative balance state.
 - **Third Negative Balance Communication** – If account balance stays in a negative balance state for 6 calendar (make configurable) days a follow-up communication is systematically sent to mailer and USPS stating that the account has remained in a negative balance state. [CR 1645](#)

6.2 EPS Reports

- A USPS update introduced a new report that identifies mailers that have a balance below the USPS-set low-balance threshold and systematically send it to people or organizations. [CR 1621](#)
- A USPS update introduced a new report that shows transactions attempted against trust with insufficient funds and systematically send it to people or organizations. [CR 1622](#)
- A USPS update was implemented to improve *PostalOne!* Invoices within the EOD OAR invoice job. This helps make the daily cutoff consistently and removes extra conditions, adds indexes, and tweaks queries to improve performance. [ETR 2044](#)

6.3 ePOBOL

- A USPS update implemented a resolution to allow EBill to systematically retry sending ePOBOL returns to ePOBOL. [ETR 2014](#)

7.0 Package Platform Concept – Correction to known issue

Reporting Service — An update created the capability to generate a Package Level Details Report that allows internal and external users to view package level data. [CR S-584589](#)

- Internal and external users have the ability to search for package level details by entering an EFN or individual PICs.
- Internal and External user have the ability to export the report via csv, excel and printer friendly formats

8.0 Document History

Date	Change	Section	Description
6/16/2022	2.0	6.0	Added EPS Correction to the known issues
		5.0	Added new ETRs and CRs for PostalOne
		7.0	Added PPC ETRs
6/23/2022	3.0	All	Update text for release.
