

LETTER MAIL TED-C INSPECTION TEMPLATE INSTRUCTIONS

2 INSPECT TED-C PROFILE

- The vertical size of die-cut space must be greater than 1 inch.
- To qualify for automation prices, a Die-Cut extension cannot be only in ZONE A or ZONE D or only in both ZONES A and D. Therefore, some part of the extension must be in either ZONE B or C.
- It is recommended that the Die-Cut shape should extend in ZONE C. If the Die-Cut extension's leftmost edge is not in ZONE C, it will process. However, there may not be any visibility of the Die-Cut in Informed Delivery® for recipients.

DIE-CUT MEASUREMENT ZONES - NO PART OF DIE-CUT MAY EXTEND BEYOND THIS LINE
