Product Descriptions

Developer's Kit

This kit is required to access AMS API. Purchasing this kit allows the licensee to use each of the following: AMS API, DPV API, LACS^{Link} API, and Suite^{Link} API, and one operating platform.

Additional Developer's Kit

This kit is required when the user requests additional operating platforms for the AMSAPI Developer's Kit. For example: If the user originally purchased the W32 platform and later requested the L32 platform.

Resell-Distributor License

This license is needed only if you currently have or will develop a product for commercial resale or distribution. The resell license is for one operating platform only and includes Internet usage.

Additional Resell-Distributor License

This license is needed when the user requests additional operating platforms for the AMS API Resell-Distributor License. For example: If the user originally purchased the W32 platform, and later requested the L32 platform.
