Mail Service Updates

Mail service updates are provided to the mailing industry so mailers are aware when service is suspended at Post Office facilities for any reason, including natural disasters, such as floods or fires. Updates are made in real time, and these pages are updated frequently. For details of the current impacted areas, [click here](#).

Intelligent Mail® Services

eDoc and Full-Service Authorization for Software Vendors

The Postal Service has launched a voluntary process for software vendors and developers to authorize their product(s) in the Test Environment for Mailers (TEM). To get started, [click here](#) to review the Mail.dat or Mail.XML guides and access the on-line Enrollment Tool.

Transitioning to the Intelligent Mail Barcode Webinar Series

The Postal Service hosted a series of webinars to assist mailers in transitioning from the POSTNET barcode to the Intelligent Mail barcode. For a description of the webinars and links to the recordings and presentations, [click here](#) to go to the Education page.

On the Move

The National Customer Support Center (NCSC) is moving its office location. Starting Dec. 1, the new address for the NCSC will be:

**NATIONAL CUSTOMER SUPPORT CENTER
UNITED STATES POSTAL SERVICE
225 N HUMPHREYS BLVD STE 501
MEMPHIS TN 38188-1001**

The NCSC works closely with the mailing industry, vendors and internal postal customers to improve address quality. The USPS headquarters office of Address Management also is located at the NCSC.

Numerous USPS publications, forms, brochures, etc. currently provide the existing address for the NCSC – all of which will need to be updated, including those on [usps.com](#) and other postal websites. Telephone numbers for all NCSC personnel and program support groups will remain the same.
