

LICENSING ANNOUNCEMENT

MAY 13, 2016

Updated NCOA^{Link}® MPE Performance Requirements

Primary Audience: NCOA^{Link} MPE Developer and Data User Licensees

The NCOA^{Link} MPE Data User Licensee Performance Requirements (section 8.8.4) and MPE Developer Software Performance Requirements (section 12.5.4) have been updated with the following language under the Notification via Returned Mailpiece section:

For mailpieces that are returned to the customer, Licensees may have the option to spray the Intelligent Mail barcode on mailpieces that have updated COA information or suppress the Intelligent Mail barcode from the mailpieces and only spray the new address information.

If you have any questions regarding this updated language, contact the Licensing Department at 800-589-5766 or ncoalink@usps.gov.
