

# LICENSING ANNOUNCEMENT

**JULY 24, 2017**

## **CASS™/MASS™ TEST FILES ON EPF**

### **Primary Audience: USPS® Licensed Developers and CASS/MASS Manufacturers**

The CASS/MASS test files are now available via the Electronic Product Fulfillment (EPF) website. In the coming week, all active EPF users who already have access to the existing CASS/MASS roles will receive a welcome email once the roles for the test files have been set up. The assigned roles will be based on products for which you currently subscribe to and/or are licensed. This data must be used for all testing. Software developers must provide the test data to all end users for testing. Failure to use this data will result in test failure.

Below is a sample screenshot of how the files will appear on the EPF website.
